U. S. PLANE OFF FOR HAWAII

ARMY ENTRANT IS FIRST OFF IN RACE TO ISLAND

ARMY THREE MOTORED MONO-PLANE ROARING TO HONOLULU

PASSES FARALLON ISLANDS AT 7:40 A. M. TODAY AFTER UNEXPECTED TAKE-OFF

By JOHN N. PALMER
(United Press Staff Correspondent)

Oakland Airport, San Leandro Bay, Cal., June 28.—The army's three-motored monoplane was roaring beyond the Farallons, flying toward Honolulu, at 8:15 A. M. today while a tiny civilian plane which challenged the army's right to conquest waited here for a delayed take-off.

Lieutenants Lester J. Maitland and Albert F. Hegenberger soared across the Farallon Islands, 35 miles off California at 7:40 A. M.

Thirty minutes had elapsed since their dramatically unexpected take-off from this field.

At the Farallons, the last of 11 army escort planes turned back to Crissy Field.

The diminutive Travelair monoplane of Ernest L. Smith and Captain Charles Carter waited at Oakland Airport, delayed by the installation of an altimeter.

ARMY PLANE LEFT OAKLAND AT 7:10 A. M.

By JOHN N. PALMER
(United Press Staff Correspondent)

Oakland Airport, San Leandro Bay, Cal., June 28.—The tri-motored Fokker monoplane piloted by army aviators, soared into the low fog over San Leandro bay at 7:10 a. m. today to start its attempted flight to Hawaii.

The plane was in the air one minute after starting down the runway. The start was sudden. Lieutenants Lester J. Maitland and Albert F. Hegenberger had arrived at the field only a few minutes previously. Maitland ordered a second rope barricade placed around his giant ship. It appeared that he would not be ready to take off for many minutes.

Suddenly both Maitland and his navigator donned helmets and jumpers. They entered the plane, waved goodbye and were off.

Ernest L. Smith, air mail pilot who expects to beat the army fliers to Hawaii smiled as he saw the great olive drab ship rise into the air.

The Travelair monoplane which Smith intends to pilot to Honolulu was through its final tuning and was expected to be in the air within an hour.

"I can give 'em a two hours start and beat them," Smith said.

The actual rise of the Fokker was veiled behind clouds of dust. Word of the takeoff was flashed to the starting point from a telephone down the field.

The great plane, a duplicate of the "America" which Commander Richard E. Byrd hopes to fly to Europe, soared toward the Golden Gate opening up the 2404-mile waterway to the finishing point in Honolulu.

The Fokker carried a load of 18,900 pounds. Its only occupants were Maitland and Hegenberger.

Maitland estimated the time required to make the flight would be from 24 to 27 hours.

The start of the army flight was dramatic in its unexpectedness.

"Goodbye boys, we're off—"

Spectators thought the air men were posing for photographers until this farewell was spoken.

Immediately after the departure an army officer was seen to walk to Smith, who hoped to be first in taking off, and embrace him.

Smith laughed and appeared undiscouraged in the strength of his conviction that he can still "beat 'em to Hawaii."

Smith and his navigator, Captain Carter, engaged in excited activity as soon as the Fokker was beyond sight.

They made repeated trips between the plane and their supply tent.

It was believed they would make every effort to take off as quick as Smith was introduced to Maj. Gen. Mason M. Patrick, chief of the army air service.

"My boy, I hope you make it,"

Mrs. Calvin Coolidge Communicates With Pi Phis

5 BANDITS ROB BANK OF \$65,000 CASH AND BONDS

Gallion, O., June 28.—(UP)—Five bandits entered the Commercial Savings Bank here this morning, held up bank officials and escaped with \$15,000 in cash and \$50,000 in bonds. Two of the bandits pointed guns at the bank officials and watched the doors while the other three men removed the money and bonds.

TEN VESSELS TO GIVE AID ON THE COURSE

STRUNG OUT ON THE SEA LANE FROM SAN FRANCISCO TO HONOLULU

CONTACT IS ESTABLISHED BETWEEN VESSELS AND BOTH SHORES

San Francisco, June 28.—(UP)—At least 10 commercial vessels, strung out along the sea lanes between this port and Honolulu, have received radio instructions to give all assistance possible to the trans-Pacific planes of Lieut. Lester Maitland and Ernest L. Smith.

At radio headquarters in San Francisco, it was announced that a network of radio connections had already been established between these vessels and shore stations.

Masters of vessels were instructed not only to hold themselves in readiness to perform any service, but to broadcast complete details whenever the flyer is sighted or heard from. Vessels will also be prepared to signal latitude and longitude to both planes by use of signal flags.

Included among the vessels: now between San Francisco and Honolulu are the Sonoma, Sierra and Calawall, all passenger ships. The Matson ships Maui and Matsonia are on the course and two Matson freighters, bound for Honolulu from Puget Sound, are reported nearing the great circle route to the Hawaiian Islands.

There are also Dollar and Nippon Yusen Kaisha liners as well as several oil tankers between here and the islands.

TOMORROW NEW CRISIS FOR TWO, SACCO, VANZETTI

Boston, June 28.—(UP)—Tomorrow may bring a new crisis in the lives of Nicola Sacco and Bartolomeo Vanzetti, who for six years have been fighting to escape death in the electric chair.

Unless Gov. Alvan T. Fuller, who for several weeks has been making a personal investigation of the case, intervenes, the convicted men will be transferred from Dedham jail to the death house at Charleston state prison. They are under sentence to be executed the week of July 10.

Recently Gov. Fuller appointed Presidents A. Lawrence Lowell of Harvard and Samuel W. Stratton of Massachusetts Institute of Technology, and former Judge Robert Grant to serve as an advisory committee in connection with the review of the case.

But the advisory committee has not yet met to organize formally, and for this season, Sacco-Vanzetti sympathizers were convinced the executive will grant the man a respite.

COL. LINDBERGH TO FLY TO ST. LOUIS IN ARMY PLANE

New York, June 28.—(UP)—Colonel Charles A. Lindbergh will fly to St. Louis tomorrow in an army pursuit plane. There he will board his own plane, the Spirit of St. Louis, and take off for Ottawa, where he is scheduled to arrive at noon Saturday. He will participate in the celebration of the Dominion confederation jubilee, remaining in that city two days.

Beyond that, Lindbergh told reporters, he had no definite plans. Asked if he intended to tour the United States in his plane he said, "Possibly, but I have not really thought it out."

Lowden Wave Appears to Have Been Engulfed By Coolidge Cross Current In Farming West

SMITH-CARTER FLIGHT IS POSTPONED

DEFINITE ANNOUNCEMENT WAS MADE AT NOON TODAY

CIVILIAN PLANE ATTEMPTED FLIGHT 9:38 A. M.; RETURNED 9:45 A. M.

Oakland Airport, San Leandro, Cal., June 28.—Edmund J. Moffett, flight backer, announced at noon today that the Smith-Carter attempted flight to Honolulu is indefinitely postponed.

"Lack of confidence on the part of Capt. Carter causes us to announce indefinite postponement of the flight," Moffett declared.

"After the take-off came the unfortunate accident to the windshield and Carter asked Smith to return. After the new windshield had been installed, Smith wanted to leave immediately, but Carter lacked confidence."

Oakland Airport, San Leandro Bay, Cal., June 28.—The single motored monoplane of Ernest L. Smith and Captain Charles Carter returned to Oakland Airport at 9:45 A. M. today after taking off at 9:38 A. M.

The plane landed at the far end of the field.

The return was necessitated, it subsequently developed, when the windshield in front of Smith's cockpit broke in two shortly after he soared out over the bay.

Aviators here said his landing was "miraculous" in view of the load carried by the plane and the rough section of the field he was forced to select.

Work on the new windshield was pronounced virtually completed here shortly after 11 o'clock.

"If we are forced to wait much longer and if the cross winds get any stronger, we may have to postpone the take-off until tomorrow," Moffett, principal flight backer, said.

"Smith and Carter are determined to be the first civilians to cross, however."

Brisk cross winds sprang up toward noon. Winds of similar character caused Lieutenants Maitland and Hegenberger, on visiting this field last week, to doubt that a heavily loaded plane could successfully take off from here.

NOVELIST LEAVES FATE IN HANDS OF THREE JUDGES

Rockville, Conn., June 28.—(UP)—Leonard Cline, novelist, charged with murder in connection with the death of Wilfred Irwin, playwright, decided today to entrust his fate to three judges instead of to a jury.

Cline's case will be the first involving a capital offense to be tried under the new Connecticut law giving a defendant the privilege of submitting to trial by jurors.

The novelist will be tried in the September term of court. Meanwhile, he is writing a novel in his cell in Poindexter county jail.

FLIES SELF FASHIONED PLANE

Sydney, New South Wales, June 28.—(UP)—In one of the fastest long-distance flights accomplished in Australia, Wing Commander Wackett, Australian air force, today flew a self-designed and self-manufactured Widggon seaplane from Sydney to Melbourne. He averaged over 100 miles an hour on the 5½ hour trip. The plane probably will be used later in a non-stop flight to New Zealand.

LOG OF THE FLIGHTS

Maitland-Hegenberger Plane
7:10 A. M. (Pacific coast time)—Hop off from Oakland Airport, San Leandro Bay, California.

7:20 A. M.—Passed over Crissy Field, San Francisco.

7:40 A. M.—Passed over Farallon Islands, 40 miles from starting place.

8:15 A. M.—S. S. American Legion, 108 miles at sea, reported that the plane passed overhead, flying steadily.

10:25 A. M.—Reported by radio to navy wireless headquarters at San Francisco from a point 300 miles west of shore. All well.

Smith-Carter Plane

9:38 A. M.—Ernest L. Smith and Capt. Charles Carter take-off from Oakland Airport in single motored monoplane.

9:45 A. M.—Plane breaks windshield and is compelled to return.

CRUISER PROGRAM TAKEN UP AT THE ARMS PARLEY

NEXT TO BATTLESHIPS, IT IS MOST CRITICAL QUESTION

THE TECHNICAL COMMISSION ANALYZES VARIOUS STATEMENTS

By HENRY WOOD
(United Press Staff Correspondent)

Geneva, June 28.—Undismayed by its load of other troubles, the naval limitation conference today began consideration of the cruiser program.

Next to the question of battleships which Great Britain was trying to raise with Japanese support, despite its absence from the program, the cruiser question was the most critical.

But with heads of the three delegations still arguing over other problems, the technical commission on cruisers began active work.

Disagreement was expected to arise early. Great Britain and Japan both thought their cruiser needs greater than would be apportioned to them under the 5-5-3 ratio, which grants equality to the United States and Great Britain and allots Japan 50 per cent of their strength.

Also Great Britain favored lowering maximum strength of cruisers from the present 10,000 tons and limiting cruiser armament. The United States, looking toward the Philippines and remembering the scarcity of American naval bases at which cruisers could be re-fueled and re-stocked on the voyage across the Pacific, favored big cruisers, able to make long journeys.

Expectation of disagreement in the technical commission was soon realized.

The British insisted on their proposal to specify two classes of cruisers—large and small.

The Americans and Japanese asked additional time to study the effect of such a division of their fleets.

Tomorrow the destroyer question will be raised.

OUR DAILY QUAKE REPORT— UKRAINE SHAKEN

Sebastopol, Russia, June 28.—(UP)—Sweeping the entire Crimean peninsula and extending into the Ukraine, a powerful earthquake, the first in seven years, caused enormous mountain avalanches today.

Several houses were destroyed in the sparsely populated earthquake district, and many were damaged.

No deaths were reported, but seven persons were injured—all in fleeing panic stricken from their homes.

McNARY-HAUGEN BILL WAS ONCE SUPREME ISSUE

DIES DOWN TO RIPPLE SINCE COOLIDGE VACATIONED IN SOUTH DAKOTA

BEST BAROMETER APPEARS TO BE THE STATE LEGISLATURE

By PAUL R. MALLON
(United Press Staff Correspondent)

Rapid City, S. D., June 28.—The Lowden wave appears to have been engulfed by a Coolidge cross current in this key state of the farming west.

The movement to further the candidacy of former Governor Frank O. Lowden who favored the McNary-Haugen bill as against President Coolidge who killed it, was riding high on these endless prairies, but it has died down to a ripple since Mr. Coolidge selected South Dakota as his summer home.

The best barometer of the situation here, according to local political authorities is the state legislature purporting to represent the people of the state. When Mr. Coolidge vetoed the farm bill feeling ran high against him in that body and a resolution was considered in which the state would have been pledged to the McNary-Haugen theory of agricultural rehabilitation.

Since Mr. Coolidge has arrived here and brought more prominence to this state than it ever received from one man before, there has been a decided change. Not only did the legislature adjourn in a body to come to the summer White House to thank Mr. Coolidge for coming here, but it refused to grant an official welcome to an emissary of Lowden's, Rep. Dickinson, republican, Iowa. The legislature decided not to carry out its original plan of hearing Dickinson on the subject of farm relief in regular session and he was received only informally because—as one of the state's political leaders said—"To have such a thing happen while Mr. Coolidge is a guest of the state would be inhospitable."

Furthermore, Walter Travis, a political writer of prominence here recently conducted a poll of nine tenths of the legislature and all save five senators, showed an overwhelming majority of the opinion that Mr. Coolidge would carry the state if he ran. There were 69 for Coolidge and 31 for Lowden. The remainder were scattered, some favoring Vice President Dawes or Senator Norris, republican, Nebraska.

Control of the state republican organization (which means control of the state because there are few democrats here) is in the hands of Senator Peter Norbeck, republican, South Dakota. The Black Hills which Mr. Coolidge has advertised widely by his presence are Norbeck's pet hobby. Since Mr. Coolidge has been here, Norbeck has been closely allied with him, and few if any now believe that Norbeck would work against Mr. Coolidge should the president seek another term.

Likewise Mr. Coolidge's frequent words of enthusiastic praise for the hills has led everyone here to believe Mr. Coolidge is out to do his best for the hills and that therefore South Dakota must do its best for him.

If he loses a majority of the votes to Lowden, his chief opponent in this farming region where Lowden was supposed to be strongest, it will be because of some unexpected development which leaders here cannot foresee at this time.

Ames, Ia., June 28.—(UP)—Albert Hochreiter, Albert Lea, Minn., and Pete Schneider, address unknown, were under arrest here charged with driving an automobile while intoxicated. A bottle of alleged moonshine was found in their automobile.

MOTHER AND 5 CHILDREN DIE IN THEIR HOME

White Stone, N. Y., June 28.—(UP)—Mrs. Marie Fredman, 35, and her five young children died in their home today, the mother apparently a suicide by gas.

The children were: Theodore, 10; Janet, 7; Catherine, 4; Nancy, 3, and Joseph, 2.

Mrs. Fredman, the police said, turned on the gas of her kitchen stove.

CHICAGO FACES TRANSPORTATION GENERAL TIE-UP

WAGE DIFFICULTIES BETWEEN CARMEN AND EMPLOYERS

CONFERENCE OF CARMEN UNION OFFICIALS SET FOR TODAY

Chicago, June 28.—(UP)—America's second largest city today faces a general transit tie-up unless arbitration brings a settlement to the wage difficulties between carmen and employers.

A conference of carmen's union officials is scheduled for this morning at which time the action to be taken will be decided. Should the surface line employees—numbering 15,000—be called out the 5,000 employees of the elevated system also will go on strike.

Arbitration is expected. A strike now would bring virtual paralysis to the city. The buses for the first time would be given their chance at moving the thousands of down-town workers, but these are not considered capable of moving the mass of Chicago's people. The suburban steam lines do not extend to sufficient parts of the city to care for the overflow of workers.

It was not indicated today whether attempts would be made to operate the surface and elevated trains in case of a strike, although it was said that officials of strike breaking agencies had been in the city for the past few days.

Carmen of both the surface and the elevated line are asking fifteen cents an hour increase in wages and insurance benefits. It is understood the elevated employees have been granted this latter concession.

Two of the surface lines are in federal receivership and it is likely that representatives of both the employers and employees will be called into federal court to avert a general strike is called.

STATE IN ANOTHER EFFORT TO EXECUTE RUSSELL SCOTT

Chicago, June 28.—(UP)—The state of Illinois will make another effort to bring about the execution of Russell Scott, former Canadian millionaire convicted of murder, tomorrow, it was announced today.

George E. Gorman, first assistant state's attorney, announced he would go before Chief Justice William J. Lindsay of the criminal court and ask that a sanity hearing for Scott be set immediately.

Scott, four times saved from the gallows, was found insane and later found sane by sanity commissions. The decision which found him sane was appealed and the state supreme court last week ruled in favor of a new sanity hearing.

In case he is found sane Scott must be sentenced to hang in accordance with the verdict against him in 1924. He was convicted of killing Joseph Maurer, a drug clerk, in a holdup.

AWARD PRIZE FOR NEW NAVY DIRIGIBLE DESIGN

Washington, June 28.—(UP)—The Goodyear Tire and Rubber company, Akron, O., today was awarded first prize for design for the new navy dirigible of 6,500,000 cubic feet.

CONVEYS REGRETS AT NOT BEING ABLE TO ATTEND

NEW SYSTEM OF ACCOUNTING, NATIONAL IN SCOPE, ADOPTED AT CONVENTION

MODEL INITIATION CEREMONIES LAST NIGHT, MRS. GOODSELL THE INITIATE

Mrs. Calvin Coolidge, first lady of the land, an ardent Pi Beta Phi, in a letter to the biennial convention assembled at Breezy Point Lodge, on Big Pelican lake, expressed her sincere regret at not being able to attend and be with her sister Pi Phis. It was difficult, if not absolutely impossible for her to attend, and she earnestly wished for Pi Beta Phi the most successful convention in its glorious history.

Yesterday's afternoon session was devoted largely to the reading of officers reports.

Among the important business matters adopted was a system of accounting national in its scope, making such work uniform in the chapters.

Last night Mrs. Bertha M. Goodell, former dean of women of Franklin college, was the initiate at the model initiation ceremonies exemplified in the pavilion.

This morning the alumnae are in session with 134 clubs represented. Miss Emilie Margaret White, of Washington, D. C., Grand Vice President of the Pi Beta Phi, is presiding.

On Thursday afternoon the alumnae will again be given precedence in the deliberations and the rest of the delegates will "sit in" at the session.

At the round tables this afternoon the discussions will center on scholarship, national standing, etc.

Miss Anna Blitt, dean of women of the University of Minnesota, will be a special guest of the convention this afternoon.

Miss Amy B. Onken, Grand President, in her report commented on the number of chapters owning their own homes. Of 71 chapters, 39 own homes having a valuation of approximately \$1,500,000.

The catalogue reported 16,999 members.

Mrs. Agnes Wright Spring, editor of the Arrow, the official publication of the Pi Beta Phi fraternity, gave statistics. For instance, it takes six tons of paper for an issue of the magazine. The publication has an endowment fund of \$125,000.

Today photographers were busy taking pictures of groups of Pi Phis and the spacious and beautiful grounds of Breezy Point lodge. A large group picture of all the delegates and members will also be taken before the convention closes. The weather is exceptionally fine for outdoor picture taking.

Days' Programs
At 8 o'clock this evening the settlement school program will be the sole topic, welfare work of the highest order and carried out in splendid manner.

On Wednesday, June 29, extension work will be taken up at the morning session. The afternoon will be devoted to a recreation program and the evening to a stunt night.

On Thursday the morning regular business session will be followed by the alumnae department program of the afternoon, and the grand banquet in the evening.

Friday morning the regular business session includes the convention, followed by the start of the tour to Yellowstone Park for some, the post-convention outing at Inwood for others, while still others may visit friends in the Brainerd Lake Region.

The Tournaments

The various athletic and recreational tournaments are assuming shape. Tennis, golf, bowling, water sports and bridge have been made particularly interesting by the offer of several prizes for tournament winners. These prizes are being offered by Mrs. W. H. Fawcett, by the St. Paul and Minneapolis Alumnae club and by Twin City business concerns.

Three prizes were awarded at the bridge tournament held on Monday afternoon, two are being offered for tennis Tuesday and Wednesday.

The Americans and Japanese asked additional time to study the effect of such a division of their fleets. Tomorrow the destroyer question will be raised.

OUR DAILY QUAKE REPORT— UKRAINE SHAKEN

Sebastopol, Russia, June 28.—(UP)—Sweeping the entire Crimean peninsula and extending into the Ukraine, a powerful earthquake, the first in seven years, caused enormous mountain avalanches today.

Several houses were destroyed in the sparsely populated earthquake district, and many were damaged.

No deaths were reported, but seven persons were injured—all in fleeing panic-stricken from their homes.

McNARY-HAUGEN BILL WAS ONCE SUPREME ISSUE

DIES DOWN TO RIPLEE SINCE
COOLIDGE VACATIONED IN
SOUTH DAKOTA

BEST BAROMETER APPEARS TO
BE THE STATE LEGIS-
LATURE

By PAUL R. MALLON
(United Press Staff Correspondent)

Rapid City, S. D., June 28.—The Lowden wave appears to have been engulfed by a Coolidge cross current in this key state of the farming west.

The movement to further the candidacy of former Governor Frank O. Lowden who favored the McNary-Haugen bill as against President Coolidge who killed it, was riding high on these endless prairies, but it has died down to a ripple since Mr. Coolidge selected South Dakota as his summer home.

The best barometer of the situation here, according to local political authorities is the state legislature purporting to represent the people of the state. When Mr. Coolidge vetoed the farm bill feeling ran high against him in that body and a resolution was considered in which the state would have been pledged to the McNary-Haugen theory of agricultural rehabilitation.

Since Mr. Coolidge has arrived here and brought more prominence to this state than it ever received from one man before, there has been a decided change. Not only did the legislature adjourn in a body to come to the summer White House to thank Mr. Coolidge for coming here, but it refused to grant an official welcome to an emissary of Lowden's, Rep. Dickinson, republican, Iowa. The legislature decided not to carry out its original plan of hearing Dickinson on the subject of farm relief in regular session and he was received only informally because—as one of the state's political leaders said—"To have such a thing happen while Mr. Coolidge is a guest of the state would be inhospitable."

Furthermore, Walter Travis, a political writer of prominence here recently conducted a poll of nine-tenths of the legislature and all save five senators, showed an overwhelming majority of the opinion that Mr. Coolidge would carry the state if he ran. There were 69 for Coolidge and 31 for Lowden. The remainder were scattered, some favoring Vice President Dawes or Senator Norris, republican, Nebraska.

Control of the state republican organization (which means control of the state because there are few democrats here) is in the hands of Senator Peter Norbeck, republican, South Dakota. The Black Hills which Mr. Coolidge has advertised widely by his presence are Norbeck's pet hobby. Since Mr. Coolidge has been here, Norbeck has been closely allied with him, and few if any now believe that Norbeck would work against Mr. Coolidge should the president seek another term.

Likewise Mr. Coolidge's frequent words of enthusiastic praise for the hills has led everyone here to believe Mr. Coolidge is out to do his best for the hills and that therefore South Dakota must do its best for him.

If he loses a majority of the votes to Lowden, his chief opponent in this farming region where Lowden was supposed to be strongest, it will be because of some unexpected development which leaders here cannot foresee at this time.

Ames, Ia., June 28.—(UP)—Albert Hochreiter, Albert Lea, Minn., and Pete Schneider, address unknown, were under arrest here charged with driving an automobile while intoxicated. A bottle of alleged moonshine was found in their automobile.

MOTHER AND 5
CHILDREN DIE
IN THEIR HOME

White Stone, N. Y., June 28.—(UP)—Mrs. Marie Fredman, 35, and her five young children died in their home today, the mother apparently a suicide by gas. The children were: Theodore, 10; Janet, 7; Catherine, 4; Nancy, 3, and Joseph, 2.

Mrs. Fredman, the police said, turned on the gas of her kitchen stove.

CHICAGO FACES TRANSPORTATION GENERAL TIE-UP

WAGE DIFFICULTIES BETWEEN
CARMEN AND EM-
PLOYERS

CONFERENCE OF CARMEN UNION
OFFICIALS SET FOR
TODAY

Chicago, June 28.—(UP)—America's second largest city today faces a general transit tie-up unless arbitration brings a settlement to the wage difficulties between carmen and employers.

A conference of carmen's union officials is scheduled for this morning at which time the action to be taken will be decided. Should the surface line employees—numbering 15,000—be called out the 5,000 employees of the elevated system also will go on strike.

Arbitration is expected. A strike now would bring virtual paralysis to the city. The buses for the first time would be given their chance at moving the thousands of down-town workers, but these are not considered capable of moving the mass of Chicago's people. The suburban steam lines do not extend to sufficient parts of the city to care for the overflow of workers.

It was not indicated today whether attempts would be made to operate the surface and elevated trains in case of a strike, although it was said that officials of strike breaking agencies had been in the city for the past few days.

Carmen of both the surface and the elevated line are asking fifteen cents an hour increase in wages and insurance benefits. It is understood the elevated employees have been granted this latter concession.

Two of the surface lines are in federal receivership and it is likely that representatives of both the employers and employees will be called into federal court in event a general strike is called.

STATE IN ANOTHER EFFORT TO EXECUTE RUSSELL SCOTT

Chicago, June 28.—(UP)—The state of Illinois will make another effort to bring about the execution of Russell Scott, former Canadian millionaire convicted of murder, tomorrow, it was announced today.

George E. Gorman, first assistant state's attorney, announced he would go before Chief Justice William J. Lindsay of the criminal court and ask that a sanity hearing for Scott be set immediately.

Scott, four times saved from the gallows, was found insane and later found sane by sanity commissions. The decision which found him sane was appealed and the state supreme court last week ruled in favor of a new sanity hearing.

In case he is found sane Scott must be sentenced to hang in accordance with the verdict against him in 1924. He was convicted of killing Joseph Maurer, a drug clerk, in a holdup.

AWARD PRIZE FOR NEW NAVY DIRIGIBLE DESIGN

Washington, June 28.—(UP)—The Goodyear Tire and Rubber company, Akron, O., today was awarded first prize for design for the new navy dirigible of 6,500,000 cubic feet.

CONVEYS REGRETS AT NOT BEING ABLE TO ATTEND

NEW SYSTEM OF ACCOUNTING,
NATIONAL IN SCOPE, ADOPTED
AT CONVENTION

MODEL INITIATION CEREMONIES
LAST NIGHT, MRS. GOODELL
THE INITIATE

Mrs. Calvin Coolidge, first lady of the land, an ardent Pi Beta Phi, in a letter to the biennial convention assembled at Breezy Point Lodge, on Big Pelican lake, expressed her sincere regret at not being able to attend and be with her sister Pi Phi. It was difficult, if not absolutely impossible for her to attend, and she earnestly wished for Pi Beta Phi the most successful convention in its glorious history.

Yesterday's afternoon session was devoted largely to the reading of officers reports.

Among the important business matters adopted was a system of accounting national in its scope, making such work uniform in the chapters.

Last night Mrs. Bertha M. Goodell, former dean of women of Franklin college, was the initiate at the model initiation ceremonies exemplified in the pavilion.

This morning the alumnae are in session with 134 clubs represented. Miss Emilie Margaret White, of Washington, D. C., Grand Vice President of the Pi Beta Phi, is presiding.

On Thursday afternoon the alumnae will again be given precedence in the deliberations and the rest of the delegates will "sit in" at the session.

At the round tables this afternoon the discussions will center on scholarship, national standing, etc.

Miss Anna Bliz, dean of women of the University of Minnesota, will be a special guest of the convention this afternoon.

Miss Amy B. Onken, Grand President, in her report commented on the number of chapters owning their own homes. Of 71 chapters, 39 own homes having a valuation of approximately \$1,500,000.

The catalogue reported 16,999 members.

Mrs. Agnes Wright Spring, editor of the Arrow, the official publication of the Pi Beta Phi fraternity, gave statistics. For instance, it takes six tons of paper for an issue of the magazine. The publication has an endowment fund of \$125,000.

Today photographers were busy taking pictures of groups of Pi Phi and the spacious and beautiful grounds of Breezy Point lodge. A large group picture of all the delegates and members will also be taken before the convention closes. The weather is exceptionally fine for outdoor picture taking.

Days' Programs
At 8 o'clock this evening the settlement school program will be the sole topic, welfare work of the highest order and carried out in splendid manner.

On Wednesday, June 29, extension work will be taken up at the morning session. The afternoon will be devoted to a recreation program and the evening to a stunt night.

On Thursday the morning regular business session will be followed by the alumnae department program of the afternoon, and the grand banquet in the evening.

Friday morning the regular business session includes the convention, followed by the start of the tour to Yellowstone Park for some, the post-convention outing at Inwood for others, while still others may visit friends in the Brainerd Lake region.

The Tournaments
The various athletic and recreational tournaments are assuming shape. Tennis, golf, bowling, water sports and bridge have been made particularly interesting by the offer of several prizes for tournament winners. These prizes are being offered by Mrs. W. H. Fawcett, by the St. Paul and Minneapolis Alumnae club and by Twin City business concerns.

Three prizes were awarded at the bridge tournament held on Monday afternoon, two are being offered for tennis Tuesday and Wednesday.

Mr. and Mrs. Krueger who have been visiting Mr. and Mrs. Dan Chord and Mr. and Mrs. F. H. Mahle and friends returned yesterday to their home in Chicago. Mr. Krueger is employed as an accountant at the Belmont hotel in Chicago and Mrs. Krueger, who received her education in Brainerd, is the chief clerk at the hotel. Mr. and Mrs. Krueger spent a few days at the Halvorson cottage on Gull Lake and were delighted with the Brainerd

Lake Region. Mrs. Krueger was formerly Miss Mildred Chord of N. E. Brainerd.

CHILDREN'S CLINIC

Will be Conducted Tomorrow at Pequot With Dr. L. R. Crichfield in Attendance

Miss Thora Ingebritson, county nurse, announced this the holding of a children's clinic tomorrow at Pequot.

Dr. L. R. Crichfield, child specialist of St. Paul will render his services.

GIVEN SIX MONTHS

Harry Randall Charged With Indecent Assault Sentenced by Judge Torrance

Harry Randall charged with indecent assault was sentenced to six months in the county jail by Judge Graham Torrance in district court yesterday afternoon.

The next case to be heard is the civil action of the Commercial State bank of Brainerd vs. Asher Taylor and J. C. Clausen.

Bethlehem Evangelical Aid

The ladies aid of the Bethlehem Evangelical church, corner Main and Bluff will meet Wednesday afternoon, June 29, in the church basement, at 2:45 o'clock. Mrs. Seneka and Mrs. Knudson will entertain. Members are urged to be present, and visitors are cordially invited.

Carbine-Flanagan

The wedding was solemnized Saturday morning at 11 o'clock at the Presbyterian manse, Rev. A. G. Patterson officiating of Miss Beryl Flanagan, to Emmitt A. Carbine. Attendants were Mr. and Mrs. Roy Hegstead.

The bride is a popular school teacher from Park Rapids while the groom is employed in the N. P. shops. Following a honeymoon in Minneapolis, the couple will reside in Brainerd.

SOME EVEN DREAM

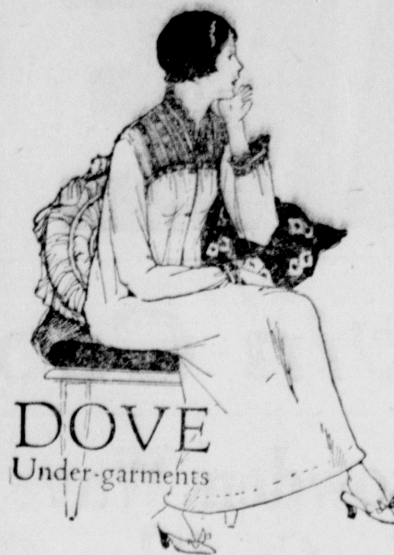

College Lad—Oh, yes, lots of the fellows use cribs in class.

No-College Lass—Gracious, are they as sleepy-headed as that?

Ambidextrous

Ambidextrous the wight who can prove himself deft. When he's sure he is right, And then he's left himself left.

New Styles In Beautiful Well Made Lingerie

DOVE Under-garments

This week we are having a special showing of the latest models in Gowns, Pajamas, Chemises, Step-ins, Costume Slips—beautiful new styles featuring the season's loveliest and most novel fashion ideas.

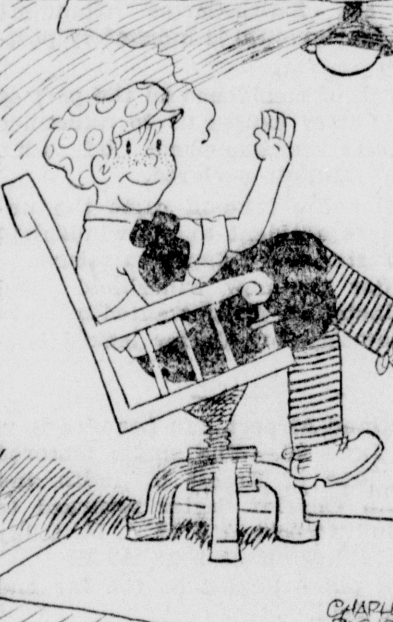

The fine silks, wash satins, batistes, voiles, nainsooks, crepes, pretty novelty cottons and rayons, of which these garments are made are all of a superior quality that will give long service and satisfaction. Let us show you today how DOVE Lingerie combines the luxury you love, with true economy.

MICKIE SAYS—

WHEN ORDERING HANDBILLS OR OTHER PRINTING DON'T ASK FOR HALF A DOZEN, BECAUSE FIFTY OR A HUNDRED IS THE LEAST IT PAYS TO BOTHER WITH. REMEMBER, SETTING THE TYPE AND ADJUSTING THE PRESS IS THE GREATER PART OF THE AVERAGE JOB.

Absent-Minded Prize

Believe it or not, we saw a patron of one of the mammoth new movie palaces in New York city walk up to a large plate-glass mirror in the lobby and ask his own image: "Which is the way out of this place?"—The Outlook.

Oh, That Squeak!

There is nothing so annoying as squeaky shoes. Place them in a dish with just enough linseed oil to cover the soles and let them stand all night.

Founded Russian Empire

About the middle of the Ninth century a Scandinavian leader, Rurik, came to Novgorod with a band of warlike followers in response to an invitation to establish order and unity. From this event the Russian historians date the beginning of the Russian empire, the foundation of which they place in the year 862.

SMART FOLKS APPRECIATE SMART DRESSING

Folks who think realize how much more comfortable it is to have the clean, stylish clothes we will furnish you and a comfortable balance in the bank than it is to needlessly spend.

Your financial safety depends upon your thoughtfulness. Give a thought to this shop.

PRIZE LISTS FOR THIRD PEONY SHOW

Sweepstake Prize is Silver Cup for
Most Perfect Flower.
Any Color

RULES GOVERNING

Entries Must be Received by Secretary of Exhibition Committee by 11 A. M. First Day

Rules governing the Third Annual Peony Show of the Crow Wing County Flower Society to be held at the court house on July 1 and 2, follows:

1. All entries must be received by the secretary of the exhibition committee by 11 o'clock the first day of the show.

2. Exhibition room will not be open to visitors until 1 o'clock the first day of the show.

3. Judging will commence at 11:30 a. m. Exhibits for premiums must be in place at this time.

4. Exhibits shall remain in place until close of the show.

5. Any person may exhibit for premiums except as in Group II.

For the most perfect peony bloom, any color, is a silver cup presented by the Brainerd Rotary club. This prize is to be competed for annually until it is won three times by the same individual. Competition is limited to members of the Garden Flower Society.

The list of prize competitions follows:

Group I Entries Open to All Exhibitors

Class 1—Best vase of three peonies of one variety. First—Peony root, to value of \$3.00. Second—Peony root, to value of \$2.00. Third—Peony root, to value of \$1.00. Presented by Riverview Gardens, St. Paul.

Class 2—Collection of four peony blooms of different varieties in individual vases. First—Peony root, to value of \$3.00. Second—Peony root, to value of \$2.00. Third—Peony root, to value of \$1.00. Presented by Riverview Gardens, St. Paul.

Class 3—Collection of three varieties, three blooms each. First—Darwin Tulip bulbs to value of \$5.00. Second—Darwin Tulip bulbs to value of \$3.00. Third—Darwin Tulip bulbs to value of \$2.00. Presented by Northrup, King & Co., Minneapolis.

Class 4—Best collection of single peony varieties. First—Peony root, to value \$2.00. Second—Peony root, to value \$1.50. Third—Peony root, to value 75c. Presented by Brainerd Garden Flower Society.

Class 5—Artistic arrangement of peonies with or without other flowers or foliage in a vase or other receptacle suitable for home decoration. First—Vase, presented by Mrs. B. C. McNamara, Brainerd, Minn. Second—Peony root, Victoria de LaMarne. Third—Peony root, Alter of Candels. Presented by Riverview Gardens, St. Paul.

Class 6—Best peony bloom from roots planted in fall, 1926, any variety. First—Iris roots to value of \$2.50. Second—Iris roots to value of \$1.50. Third—Iris roots to value of \$1.00. Presented by Riverview Gardens, St. Paul.

Group II Eligible Only to Members of the Garden Flower Society

Class 7—Artistic arrangement of ten peony blooms with or without ferns or other foliage. First—Peony root to value of \$2.50. Second—Peony root to value of \$1.00. Third—Peony root to value of \$1.00. Presented by Riverview Gardens, St. Paul.

Class 8—Specimen bloom, named variety, white in general effect. First—Peony roots to value \$4.00. Second—Peony roots to value \$2.50. Third—Peony roots to value \$1.50. Presented by W. M. Stone Peony Gardens, Annandale, Minn.

Class 9—Specimen bloom, named variety, pink in general effect. First—Peony root, "Mikado," valued at \$2.50. Presented by Holm & Olson, St. Paul. Third—Peony root to value of \$1.00. Presented by Riverview Gardens, St. Paul.

Class 10—Specimen bloom, named variety, red. First—Iris roots to value \$2.50. Second—Iris roots to value \$1.50. Third—Iris roots to value \$1.00. Presented by Riverview Gardens, St. Paul.

Group III Entries Open to All Exhibitors

Class 11—Oriental Poppies, 1 vase, first, \$1.00; second, 75c; third, 50c.

Class 12—Larkspur, 1 vase, first, \$1.00; second, 75c; third, 50c.

Class 13—Iris, 1 vase, first, \$1.00; second, 75c; third, 50c.

Class 14—Perennials, not named above, first, \$1.00; second, 75c; third, 50c.

Class 15—School child's arrangement of wild flowers, first, \$1.00; second, 75c; third, 50c.

Class 16—Iris, three named varieties, one stalk each, first, \$1.00; second, 75c; third, 50c.

Class 17—Artistic arrangement of irises with or without other flowers or foliage in a receptacle suitable for home decoration, first, \$1.00; second, 75c; third, 50c. Presented by the Brainerd Garden Flower Society.

POST MORTEM INTO DEATH OF FARMER

Omaha, Neb., June 28.—(UP)—Post mortem into the death of Henry Westcott, 50, Logan, Ia., farmer, was being held here today. Doctors conducting the examination said they were sure Westcott had been "struck over the head with a blunt instrument."

Inquest will be held at Logan tomorrow. Westcott was found with his skull battered in, on a field of his farm yesterday. A bloody wrench was by his side.

U. S. PLANE HOPS OFF FOR HAWAII

(Continued from page 1)
Gen. Patrick said, "You certainly have courage."

"Thanks, general," Smith answered.

At 7:33 a. m. Capt. Carter donned his helmet and ran to his plane.

ARMY PLANE NOW 300 MILES WEST

San Francisco, June 28.—(10:25 A. M.)—The army Fokker is 300 miles west of California, according to a radio dispatch from the fliers, intercepted by the navy radio headquarters here.

San Francisco, June 28.—The United States government weather bureau pronounced weather conditions ideal for the Hawaiian flight today. A bulletin said:

"Atmospheric conditions over the ocean are ideal for flight from this coast to Hawaii. Barometer stands aish with maximum pressure in latitude 40 degrees north, longitude 140 degrees west, where pressure readings in excess of 30.60 inches are indicated."

NEWS OF OTHER FLIERS READY TO HOP OFF

Honolulu, T. H., June 28.—(UP)—Richard Grace's new propeller arrived today on the S. S. Mau and was at once transported to Pearl Harbor on a speed boat. Mechanics immediately set to work installing the propeller and expediting Grace's departure for the mainland.

Honolulu, June 28.—(UP)—Lieut. Richard Grace, California naval reserve aviator, was hopeful this morning of having his monoplane in readiness for a hop-off this afternoon for the Pacific coast mainland.

Determined to start for the mainland before or at least within a few hours after flyers there get away for Hawaii, Grace had hoped to begin his flight yesterday and was halted only by a cracked propeller.

He announced however that a new propeller will be installed early today, which will permit a take-off this afternoon or Wednesday morning.

New York, June 28.—(UP)—Storms over the Atlantic from Newfoundland to Ireland still held the Fokker plane America on its six-foot incline on Roosevelt field today. Commander Richard E. Byrd and the other members of the proposed flight to Paris hoped as they have hoped for many days that the weather would clear up soon.

Byrd revealed that he intends to fly his plane back to the United States. He said he wants to find the shortest route to Europe and the shortest route back.

Weather Observer Kimball said a 35-mile northeast wind prevailed over part of the Atlantic today. Byrd said that would reduce the speed of the plane 15 to 25 miles an hour and increase the fuel consumption so that the tanks might be empty before the ocean had been crossed.

Honolulu, June 28.—(UP)—Richard Grace took the air at 10 a. m. today with the newly arrived propeller on his plane. He circled above Pearl Harbor, apparently testing his machine, but had not departed for Baking Sands at Kaula.

MOVIE STARS SALARY MAY CONTINUE BIG

WEEKLY PAY ENVELOPE MAY NOT LOSE ITS BULGE AFTER ALL

RUMORS THAT PRODUCERS MAY RESCIND WAGE CUT

Hollywood, Cal., June 28.—(UP)—The weekly pay envelope of the high-salaried movie stars may not lose its bulge after all.

As the shining lights of the cinema world yawned and stretched laying in bed today, they were cheered by rumors that producers were considering rescinding the order for a 10 percent wage cut to meet the high cost of production.

At a hastily called meeting of the Motion Picture Producers' association last night, it was learned from reliable sources that members were considerably alarmed at the attitude the stars had taken toward the proposed reduction and the feasibility of postponing action was seriously discussed.

The officials, however, had no announcement to make at the close of the meeting.

The rumbling of protests against the wage slash gained momentum when Tom Mix, movie cowboy and one of the highest salaried stars, came out hat-footed and announced he would not take a single dollar reduction.

Mix was the first of the stars to come out in open defiance of the order. Threats of appealing to the actor's equity in New York to organize the film stars as a means of combatting the proposed reduction were heard on all sides as the producers met.

In some quarters the move of the producers was regarded as a "feeler" while in other well informed sources it was learned the high cost of production and the other reasons given for the contemplated salary cut would be used as an argument against increasing the salaries of stars whose contracts are about to expire.

DROWNED MAN MAY HAVE MET WITH FOUL PLAY

Annandale, Minn., June 28.—(UP)—An inquest into the death of George West, 55, whose body was found in Clearwater lake last Sunday, was held here today. A bullet hole was found in the back of West's head.

West was found with a rope tied

Power Travel for EVERYONE

around his body and a heavy boat anchor on the other end. At first it was believed he had committed suicide.

A special investigator from Stearns county is here working on the theory that West had met with foul play near St. Cloud.

The victim was last seen here about six months ago when he sold his summer home at Clearwater lake and was known to have possessed several hundred dollars.

Coroner H. A. Ridgeway said today that an empty purse was found in West's clothing and that the wound in the head was caused by a .32 calibre bullet.

FUNERAL RITES FOR MRS. EFFIE DICKINSON, MINNEAPOLIS WOMAN

York, Neb., June 28.—(UP)—The body of Mrs. Effie Dickinson, 66, Minneapolis, Minn., and a cousin of Frank O. Lowden, former governor of Illinois, will be taken to Sunrise, Minn., for burial.

Mrs. Dickinson died here Monday following an illness of several days, while here visiting with Mrs. W. H. Scott, a sister-in-law. She is survived by one son, Ralph, of Grand Rapids, and a daughter, Mrs. B. S. Young, of Minneapolis.

FUNERAL SERVICES FOR DR. H. G. LAMPSON

Duluth, Minn., June 28.—(UP)—Funeral services were held here today for Dr. H. G. Lampson, 56, prominent northwest health officer and tuberculosis specialist. The body was brought here from Minneapolis where he died suddenly last Saturday.

Dr. Lampson was president of the Minnesota Sanitation conference and a member of the executive committee of the Minnesota Public Health association.

SEEK TO HAVE R. A. BROWN SERVE AGAIN ON BOARD

Washington, June 28.—(UP)—Secretary of War Davis today requested R. A. Brown, Birmingham, Ala., to accept appointment for five years more on the board of advisors Inland Waterways corporation.

ECONOMIC FUTURE OF PHILIPPINES

GOVERNOR GENERAL WOOD SAYS FREE TRADE WITH U. S. REQUIRED

Chicago, June 28.—(UP)—The economic future of the Philippine Islands depends on a free trade between the islands and the United States, in the opinion of Governor General Leonard Wood, who is here enroute to the east.

Wood exhibited unusual vigor in the brief interview he granted newspapermen. He has aged perceptibly since the last time he was in Chicago and said that recent illnesses and accidents had somewhat weakened his condition.

"The cooler weather of the last few days has done me worlds of good," Wood said.

"If the Philippines should now achieve independence and the trade advantages be withdrawn, the whole economic structure of the islands would be destroyed. Judging from the progress which has been made in the last quarter of a century, it is possible to envision a time when the islanders may successfully carry on as an independent nation," he said.

Explaining Puzzles

The rage for puzzles is but one of the modern signs that there is in us more mental ability than we know how to utilize.—Sir Arthur Keith.

around his body and a heavy boat anchor on the other end. At first it was believed he had committed suicide.

A special investigator from Stearns county is here working on the theory that West had met with foul play near St. Cloud.

The victim was last seen here about six months ago when he sold his summer home at Clearwater lake and was known to have possessed several hundred dollars.

Coroner H. A. Ridgeway said today that an empty purse was found in West's clothing and that the wound in the head was caused by a .32 calibre bullet.

FUNERAL RITES FOR MRS. EFFIE DICKINSON, MINNEAPOLIS WOMAN

York, Neb., June 28.—(UP)—The body of Mrs. Effie Dickinson, 66, Minneapolis, Minn., and a cousin of Frank O. Lowden, former governor of Illinois, will be taken to Sunrise, Minn., for burial.

Mrs. Dickinson died here Monday following an illness of several days, while here visiting with Mrs. W. H. Scott, a sister-in-law. She is survived by one son, Ralph, of Grand Rapids, and a daughter, Mrs. B. S. Young, of Minneapolis.

FUNERAL SERVICES FOR DR. H. G. LAMPSON

Duluth, Minn., June 28.—(UP)—Funeral services were held here today for Dr. H. G. Lampson, 56, prominent northwest health officer and tuberculosis specialist. The body was brought here from Minneapolis where he died suddenly last Saturday.

Dr. Lampson was president of the Minnesota Sanitation conference and a member of the executive committee of the Minnesota Public Health association.

SEEK TO HAVE R. A. BROWN SERVE AGAIN ON BOARD

Washington, June 28.—(UP)—Secretary of War Davis today requested R. A. Brown, Birmingham, Ala., to accept appointment for five years more on the board of advisors Inland Waterways corporation.

ECONOMIC FUTURE OF PHILIPPINES

GOVERNOR GENERAL WOOD SAYS
FREE TRADE WITH U. S.
REQUIRED

Chicago, June 28.—(UP)—The economic future of the Philippine Islands depends on a free trade between the islands and the United States, in the opinion of Governor General Leonard Wood, who is here enroute to the east.

Wood exhibited unusual vigor in the brief interview he granted newspapermen. He has aged perceptibly since the last time he was in Chicago and said that recent illnesses and accidents had somewhat weakened his condition.

"The cooler weather of the last few days has done me worlds of good," Wood said.

"If the Philippines should now achieve independence and the trade advantages be withdrawn, the whole economic structure of the islands would be destroyed. Judging from the progress which has been made in the last quarter of a century, it is possible to envision a time when the islanders may successfully carry on as an independent nation," he said.

Explaining Puzzles

The rage for puzzles is but one of the modern signs that there is in us more mental ability than we know how to utilize.—Sir Arthur Keith.

"HARD BOILED" VIEWS

WHILE we have the distinguished fraternity members in our Lake Region it is most opportune to view the work of other societies. The Theta Sigma Phi, national journalism sorority for women, were considering questions propounded by Miss Zona Gale, at their Minneapolis convention.

As reported by Lillian E. Taaffe of the Minneapolis Tribune, it all centered around the question: "What effect will the literature of disillusionment, with the 'hard-boiled' strain have on the writings in the future and the attitude toward life of modern young women?"

"I wonder if you think it smart, all this literature of disillusionment, of utter boredom?" asked Miss Gale.

"In all this disillusionment which unquestionably has come out of the war there stands out one fact and that is that a revelation of things is coming. It may be a hard-boiled world but nevertheless out of it came the thing which grew in the air with your own Minnesota boy, Lindbergh."

Another speaker was Miss Lockwood, head of the department of journalism at the University of Missouri, Columbia. She made it plain that Theta Sigma Phi is determined to find out something of the jobs women do best on the papers—whether they make good police reporters, can cover a fire or catastrophe as well as a man, or whether as some editors insist 'woman's place is in the society department', and that place only.

"The complaints that have come from many sources have been due to the fact that in the journalism schools all the courses have been built around training for men's jobs on newspapers," said Miss Lockwood. "In other words, they are designed largely for men and the women doing the work formerly done more or less exclusively by men in the city rooms, but for girls wishing to do special feature work and departmental writing where their biggest opportunity lies today, there are few courses available."

PLEASED WITH BRAINERD COURTESY

THE Pi Beta Phi appreciate the courtesies shown them by the citizens of Brainerd. The fraternity is publishing a daily paper covering its convention and on the front page, first article, one finds the heading, "Brainerd Bands Greet Pi Beta Phis, Fraternity Women and Interested Citizens Gather—Address by Mayor."

We quote: "On arriving in Brainerd Sunday afternoon, the two sections of the special train were greeted with band music. Interested citizens from miles around thronged the platform to see the hundreds of Pi Phis on their way to Breezy Point."

"The section from the west, arriving at 3:15, was met by Brainerd fraternity women led by Mrs. Allbright, secretary of the Brainerd Chamber of Commerce. The Brainerd Ladies band, a splendid organization cleverly uniformed, generously entertained the visitors."

"The second section, from the east, arrived at 3:30. Mayor Frank E. Little, represented by City Attorney D. H. Fullerton, delivered an address of welcome in which he invited all Pi Beta Phis to consider Brainerd entirely at their disposal wherever they might be during the convention. Mrs. F. J. Allen, chairman of the committee on transportation, responded to the city attorney's address."

"Flags, both American and Canadian, decorated Front street of the city."

"Remarks heard after the trains left Brainerd were expressions of appreciation and confessions to 'thrills' at the thoughtfulness of Brainerd citizens for a group which it scarcely knows, but to which it wished to exemplify splendid Minnesota hospitality."

THE BROAD COURSE

THE University Daily Kansan, from The Pentagon of Phi Omega Pi refers editorially to "The Broad Course," and explains the relation of college to life.

"Emerson in his essay on 'The American Scholar' spoke of the danger of overspecialization in college. It is a well known fact that a man who makes a success today must specialize in his work."

"Hence the student questions whether to specialize or to take a broad, general course best to fit himself for life. Some believe that the man will be a better specialist who utilizes a part of his college course for studying those things which will be inaccessible when he gets outside."

"If the individual cares nothing for events, great and small, that are going on around him, he can feel satisfied with the most highly specialized course."

"If background, scope, and atmosphere are the important elements in living, then the student who derives from his college course the maximum benefit should get a perspective which will not again be available to him."

"The student who has taken a broad course should look forward to the future with confidence, knowing that he will be able to recall himself from a specialized interest to an interest in life in its entirety."

THE CHAUTAUQUA

THE Brainerd chautauqua season opened last night with a fairly large audience present. The programs are good. For months there has been a combined effort on the part of the officers, directors and committeemen interested to secure a program more varied, more interesting and better than we have ever had. We believe this ambition has been accomplished.

A wealth of unusual music, rich in variety and versatile in character; speakers with national and international reputation, specialists in the subjects presented; entertainers of the highest quality, combine to make these programs so appealing to the general public that the enthusiasm ought to be greater than ever before.

In many ways this season's program will prove to be our best program. But the box office will tell the story of how the financial end will reveal itself. Attend yourself and see that your neighbor attends. The local committees have worked faithfully and it is for the public to respond and show its appreciation by filling the Park theatre, ground floor and balcony.

It appears that there are almost as many persons who know how to control floods as there are who think they can run a newspaper, wisely observes the New York Evening Post.

CUBS ENJOY 11-4 VICTORY OVER CINCINNATI REDS

TED LYONS WINS 13TH VICTORY OF SEASON AS CHISOX DEFEAT CLEVELAND

YANKS STRENGTHEN TOP POSITION IN AMERICAN BY DEFEATING ATHLETICS

(By United Press)
Yesterday's hero—the veteran Tris Speaker whose single in the eighth inning scored the two runs that gave Washington its 9-8 victory over Boston.

Speaker also got a two base hit earlier in the game.

The game was the fourth straight victory for Washington over Boston and the ninth consecutive loss for the Red Sox.

Behind the masterful pitching of Flint Rhem the St. Louis Cardinals defeated the league-leading Pirates, 7-5, and advanced within a half game of National League command.

Rhem permitted nine hits but gave only one hit in an inning, save in the sixth when a single, double and home run gave three runs. Frankie Frisch stole his twenty-second base of the year.

Four errors plus timely hitting, gave the Chicago Cubs an 11 to 4 victory over Cincinnati. The game was a freak with wild pitches by Jackie May and the infield errors. The Cubs hit hard in the final two innings to run up five scores.

Ted Lyons won his thirteenth victory of the season as the Chicago White Sox defeated Cleveland in the first game of a double header, 7-2. The Sox lost the second game, 12-4, through loose pitching by Bert Cole and Charley Barnabe. In the second game Roger Peckinpaugh accepted 11 chances without a mishap.

Willoughby permitted the New York Giants only six hits and Philadelphia won, 6-0. Clarkson and Grimes were unable to hold the hard hitting Philadelphia team.

The New York Yankees strengthened their hold on first place in the American League through a 6-2 victory over the Philadelphia Athletics. Dutch Reuther pitched effectively until the ninth inning two singles and a walk sent him to the showers. Pennock relieved Reuther.

Five hits bunched in the sixth inning gave Detroit four runs and a 4-2 victory over the St. Louis Browns in the first game of the series.

Milwaukee, Wis.—With Strohm and Riconda leading the assault, Milwaukee smothered Minneapolis under a barrage of twenty-one hits and won, 15 to 2. Strohm made a triple, two doubles and two singles in six times at bat while Riconda had a double and three singles in the same number of attempts.

St. Paul—Zinn was effective against St. Paul, refusing to permit a man across the home plate after the first inning and Kansas City won 3 to 1. Nicholson hit a home run for Kansas City.

SPORT TABLOIDS

Chester to Meet Malone

Chicago—Lew Chester, New York middleweight, will meet Jack Malone of St. Paul in the main bout of a boxing program here tonight.

Mutuels Pay Long Prices

Chicago—The longest prices ever paid in Illinois racing circles was paid when Blue Blood won the first race at the Homewood track. The mutuels paid \$365.10 for each two dollar ticket.

Football Tickets Higher in Price

Madison, Wis.—Football tickets at the University of Wisconsin this year will be three dollars each instead of the customary two dollars and fifty cents, athletic officials announced.

May Legalize Boxing in Alabama

Birmingham, Ala.—Gov. Bib Graves today is expected to sign a bill which will legalize 10 round no decision boxing bouts.

BASEBALL'S BIG FOUR

Tris Speaker kept his average on the increase with a double and a single in four times up.

Hornsby's only hit in four attempts was a double.

Ruth and Cobb remained on the injured list.

Averages:

	AB	H	Pct	HR
Hornsby	237	89	.376	13
Cobb	201	73	.363	2
Ruth	224	77	.344	24

DEMPSEY'S WIND

NOT IMPROVED

FORMER CHAMPION HANDICAPPED BY SHORTNESS OF BREATH

Saratoga Springs, N. Y., June 28.—(UP)—Jack Dempsey is in good general physical condition but is handicapped by shortness of breath, it was evident today as he set out on the second day's training grind for his bout with Jack Sharkey.

Dempsey went through his paces for visiting sports writers yesterday. He did five miles on the road and then boxed five rounds with three sparring partners and seemed to have no trouble with them. He was puffing when the workout ended, however.

He displayed both speed and power, and his sun-browned body looked impressively vigorous.

New York, June 28.—Jack Sharkey was quoted favorite over Jack Dempsey at 13 to 10 today. One betting commissioner announced he had \$6,500 to place against \$5,000. Not many wagers have been reported.

Mickey Walker was quoted at even money for his championship bout with Tommy Milligan in London.

How It Worked

Mrs. Fuddle—I have had all the fun and pictures shifted around—they say it is a sure cure for a headache.

Mrs. Muddle—And did it cure your headache?

Mrs. Fuddle—Yes, cured mine, but gave my husband a headache.

No Fool

Bobby—Tommy Smith wanted me to fight, mother, and I wouldn't do it.

Jack Dunn Pitched Four Years Without Shut-Out

It isn't often one hears of a capable pitcher in any class going four seasons without registering a shut-out game.

Jack Dunn, now owner and leader of the Baltimore Orioles, winners of seven successive pennants, achieved that dubious distinction.

With the Brooklyn club of the National league from 1896 until 1900, he pitched over 150 games, and not until the last game of 1899 did he manage to put over a shut-out game. In a game played earlier in the season of 1899, up to the last inning, Jack had a good prospect of registering a shut-out, but failed.

With two out and two on in the ninth with Bobby Love at bat, Dunn put over two consecutive strikes. Every one was pulling for Dunn. In his eagerness to make a sure thing of it he wasted the next three trying for a strikeout for Love had a record of making four homers in one game, and Jack knew it. Love worked him for the fourth ball, which later brought in the run that spoiled Dunn's chance.

September 22, 1899, against the St. Louis Nationals, Dunn pitched his first no-run game, winning it from Cy Young, 2 to 0.

Stanley (Bucky) Harris, second baseman and manager of the Washington Nationals, was discarded by six different teams before he landed with Washington and leaped to baseball fame.

"Have you an uneasy feeling?" asks a medical ad. Yep—in the ninth inning when the score is tied and our team is at bat, three men on bases, two men out and batter has two strikes and three balls.

Portland (Ore.) goes in for big pitchers on its ball club.

Tom Turner has two shut-outs on its pay roll who are several pounds over the 200-pound mark. One is Kaufman, rf., 200 lbs. and the other is Van Walk, p., 228 lbs. and the other is Kluney, who weighs 214 pounds.

Grover Cleveland Alexander, Eddie Collins and Walter Johnson, will all celebrate their fortieth birthday anniversaries next year.

Collins is the oldest in point of service, having completed 26 campaigns in the American league.

Thomas Washington, golf professional at the Memorial Country club of Cornwall, N. J., claims to hold the United States record of 14 ace.

He made his first hole-in-one at the age of nine.

Basket-ball teams of the University of California have won 38 straight scheduled games in three years.

Their last defeat being by a one-point margin at the hands of Nevada on January 30, 1925.

A 24-mile swimming marathon for women, entries to be limited to amateurs, will be held in Detroit, Mich., July 30.

The race will be held under the auspices of the Women's Aquatic club on Lake St. Clair.

Decision by rounds is the novel plan adopted by the Sausalito (Calif.) Boxing club.

Instead of waiting until the end of a bout to give his decision, the referee posts the winner after each round on a large chart.

There is no royal road to learning, there is at least a flowery path for the modern youngster.

In the minds of an older generation which links inseparably a memory of enforced restraint with the three R's. A young couple was discussing the progress of their small son at one of the modern schools which leans toward self-expression, individual freedom and other advanced theories. "Well, I can't believe he's learning much," said the father meditatively. "He likes his school too well."

Common but Costly

Aluminum, which forms a part of all clay soils, is the commonest metal, points out an answered question in Liberty. Its high cost compared with iron is due to the difficulty of extracting the pure metal from the ore.

Jack Dunn Pitched Four Years Without Shut-Out

It isn't often one hears of a capable pitcher in any class going four seasons without registering a shut-out game.

Jack Dunn, now owner and leader of the Baltimore Orioles, winners of seven successive pennants, achieved that dubious distinction.

With the Brooklyn club of the National league from 1896 until 1900, he pitched over 150 games, and not until the last game of 1899 did he manage to put over a runless game. In a game played earlier in the season of 1899, up to the last inning, Jack had a good prospect of registering a shut-out, but failed.

With two out and two on in the ninth with Bobby Lowe at bat, Dunn put over two consecutive strikes. Every one was pulling for Dunn. In his eagerness to make a sure thing of it he wasted the next three trying for a strikeout for Lowe had a record of making four homers in one game, and Jack knew it. Lowe worked him for the fourth ball, which later brought in the run that spoiled Dunn's chance.

September 22, 1899, against the St. Louis Nationals, Dunn pitched his first no-run game, winning it from Cy Young, 2 to 0.

Stanley (Ducky) Harris, second baseman and manager of the Washington Nationals, was discarded by six different teams before he landed with Washington and leaped to baseball fame.

"Have you an uneasy feeling?" asks a medical ad. Yep—in the ninth inning when the score is tied and our team is at bat, three men on bases, two men out and batter has two strikes and three balls.

Portland (Ore.) goes in for big pitchers on its ball club. The club of Tom Turner has two sub-artists on its pay roll who are several pounds over the 200-pound mark. One is Tomlin, who weighs 228, and the other is Kinney, who weighs 214 pounds.

Grover Cleveland Alexander, Eddie Collins and Walter Johnson, will all celebrate their fortieth birthday anniversaries next year. Collins is the oldest in point of service, having completed 20 campaigns in the American league.

Thomas Washington, golf professional at the Moronock Country club of Cornwall, N. J., claims to hold the United States record of 14 aces. He made his first hole-in-one at the age of nine.

Basket-ball teams of the University of California have won 38 straight scheduled games in three years, their last defeat being by a one-point margin at the hands of Nevada on January 30, 1925.

A 24-mile swimming marathon for women, entries to be limited to amateurs, will be held in Detroit, Mich., July 30. The race will be held under the auspices of the Women's Aquatic club on Lake St. Clair.

Decision by rounds is the novel plan adopted by the Sausalito (Calif.) Boxing club. Instead of waiting until the end of a bout to give his decision, the referee posts the winner after each round on a large chart.

Sure Proof to Father

If there is no royal road to learning, there is at least a flowery path for the modern youngster, in the minds of an older generation which links inseparably a memory of enforced restraint with the three R's. A young couple was discussing the progress of their small son at one of the modern schools, which leans toward self-expression, individual freedom and other advanced theories. "Well, I can't believe he's learning much," said the father meditatively. "He likes his school too well."

ALL-ENGLAND TENNIS PLAY AT WIMBLEDON

HELEN WILLS, ELIZABETH RYAN AND FRANCIS T. HUNTER IN CONTESTS

APPEAR RESPECTIVELY AGAINST MRS. PEACOCK, MRS. GOD-FREE, HENRI COCHET

By CLIFFORD L. DAY

(United Press Staff Correspondent)
Wimbledon, England, June 28.—Semi-finalists in both men's and women's singles at the All-England tennis championships were expected to be known today.

Helen Wills, Elizabeth Ryan and Francis T. Hunter, of the American team, were billed for matches—Miss Wills against Mrs. G. Peacock of South Africa, Miss Ryan against Mrs. Kitty McKane Godfree and Hunter against Henri Cochet.

William T. Tilden won his place in the semi-finals yesterday when he beat Jacques Brugnon.

Betty Nuthall, 16-year-old sensation of the tournament, was to meet her countryman, Miss Joan Frym. Rene LaCoste, of the surviving French trio, joined Tilden in the men's singles semi-finals when he beat Jan Hozeluh, Czechoslovakia, 6-4, 6-3, 6-4.

BELIEVE FRENCH ROYALIST CROSSED LINE TO SWITZERLAND

By A. L. BRADFORD

(United Press Staff Correspondent)
Paris, June 28.—The French press today prominently displayed an unconfirmed report that L. Daudet, royalist leader, who was released from the Sante prison through a hoax, had crossed the Swiss frontier and was in Lausanne.

Authorities were skeptical of the truth of the report and were more inclined to believe that Daudet and the other two fugitives, Delest and Somard, were in hiding in or near Paris.

Unless Daudet is captured by this afternoon, the government will come in for uncomfortable criticism in the chamber of deputies. Two interpolations have been scheduled, the first by the socialist deputy, Ury, on the consequences of the government's alleged policy of repressing opposition political activity, and the second, in a more jocular vein, by the communist deputy, Ernest La Font, on "new facilities for entering and leaving the Sante prison."

Much Condensing Needed

Mrs. Suburbia, displaying the new receiving set to admiring friends: "It works like this, my dear. The aerial picks up the radio music, and it comes down inside the set, where some funny little things keep on condensing it and condensing it until the noise is small enough to work the loud speaker.—News of the World, Los don.

Has General Meaning

"Cony" is an old English name for the rabbit, which has led to the application of this term in English versions of the Bible and in common speech elsewhere to quite different animals of small size and burrowing habits.

INVISIBLE RAY REVEALS ENEMY IN THE DARKNESS

Secret Discovered by British Inventor Is Carefully Guarded by Government.

London.—The British government is jealously guarding its new war secret, a mysterious invisible searchlight ray which makes it impossible for an enemy to conduct military operations at night unobserved.

It is one of the most formidable war weapons yet discovered, and it was discovered accidentally.

John L. Baird, inventor of the television and the discoverer of the mysterious ray, looks more like a staid college professor than a scientist who is perfecting a powerful weapon for a powerful government. He accidentally stumbled on the new ray while he was trying to perfect the television apparatus with which he now broadcasts pictures by radio as far as 150 miles.

It belongs in the infra-red section of the spectrum outside the range of the human eye. His process is to isolate and use the ray which the human eye cannot see, but which is susceptible of being recorded on his secret apparatus.

"By proper adaptation of these principles," he disclosed, "it will be possible to see an enemy in the dark when he believes himself to be unobserved."

"So far we are seeing over comparatively short distances, but it has now become simply a question of certain technical improvements and the application of greater power in order to be able to see a person of a scene which is thousands of miles distant from the point where we are looking into the receiving screen."

His associate, Capt. O. G. Hutchinson, goes even further. "Attacking airplanes approaching under the cover of darkness will be disclosed to the defending headquarters by the electric eye of the television. They will be followed by searchlights emitting invisible rays, and as these rays will be unseen by them, they will continue to approach until, without warning, they are brought down by the guns of the defense."

Poor Man! Barbers Plan Masculine Hair Styles

Indianapolis.—A haircut was just a haircut until woman invaded the barber shop and demanded modes in scissors-wielding.

Now man is to have his choice of haircut styles just as definite as those from which woman chooses. Henceforth, under plans of the journeymen barbers' union, his periodic trip to the barber is to be a seance with Dame Fashion.

The union will educate male patrons to have their hair cut to a style adaptable to head and facial contour. Later, says Jacob Fisher, president, a board of fashion arbiters may be established and new styles created.

In the Victorian days the barber's artistic urge found outlet in the trimming of beards to conform with the patron's personality, through the grooming of goatees and sideburns. The barren fowl ended that. But again, after many years, men's hair-cutting is to be an art as well as a trade.

AMERICAN VETERAN GETS CALL FROM FRENCH ARMY

Offers Commission to Wisconsin Student, Who, Wounded in Its Service, Lost Memory Three Years.

Madison, Wis.—The French army, with whom he fought in the World war, receiving a wound which made three years pass as a night, has again beckoned H. L. Rice, erstwhile student at the University of Wisconsin. Rice, who is thirty-one, and was born in Pennsylvania, has been offered a commission as major in the French army, he said, and he plans to accept it.

Rice said he enlisted in France in 1912 and became a lieutenant in the heavy cavalry. With the opening of the World war his outfit was sent to help stop the Germans. German artillery took a heavy toll, and the 200 survivors were further demoralized when they engaged a regiment of Uhlans. Rice was wounded. The French finally fought their way through. Then at dusk, Rice heard a shell explode.

"I didn't feel a thing," he said. "When I woke up I was home in South Dakota. Three years had elapsed as though I had been asleep overnight."

The soldier had been in a French hospital for a year and was brought home by a French soldier. Two medals, the Belgian Order of Leopold and the French Legion of Honor, had been awarded to him.

"I didn't do anything to get them—just got shot up and happened to be the only survivor of the outfit that I know of," he remarked.

Rice's memory was restored in 1917 and he has attended the University of Wisconsin intermittently since then. A silver plate has taken the place of that part of his skull torn away by the German shell.

Find Prehistoric Sea Bottom in Michigan

Houghton, Mich.—A sea beach formed 1,000,000,000 years ago, one of the oldest in the world, is located in the upper peninsula, according to Prof. W. A. Seaman of the department of geology of Michigan college of mining and technology here. He says traces are still preserved in the hardest rocks. This old sea beach is on a low, rocky point near the Marquette branch state prison.

Professor Seaman explains

MRS. CALVIN COOLIDGE COMMUNICATES WITH PI PHS

(Continued from page 1)
three for golf Tuesday and Wednesday, three for water sports Wednesday afternoon, and one for bowling.
Mrs. Ruby Burtless Olmsted, Duluth, recreation chairman, is directing all sports events. She is assisted by Mrs. Robert J. Seiberlich, in charge of horseback riding, fishing and trap-shooting.

Mrs. F. C. Rodda is director of the golf tournament.

Mrs. Vernon M. Parkinson is arranging the tennis matches.

Miss Marion Merrill is in charge of the swimming and diving events.

Mrs. B. B. Walling directed the most successful bridge tournament.

There will also be an archery contest.

Archery

These entries in archery have been received: Rosalind Coverley, California Alpha; Mary Easton, Calif. Beta; Helen Leitz, Minn. Alpha; Catherine Chesley, Wis. Alpha.

Bowling

The bowling entries are: Jessie L. Peaves, Ill. Zeta; Jessie Lasater, Ill. E.; Betty Taylor, Ill. E.; Alice Colender, Michigan Beta; Josephine Booth, Ontario Alpha; Harriet Pearce, Ontario Alpha; Lettie E. Stewart, Columbia Alpha; Dorothy Wray, Ill. Beta; Carol Reed, Ill. Beta; Irene Hoskins, Iowa Gamma; Virginia Alexander, Iowa Gamma.

Golf

The golf entries are Agnes Wright Spring, Wyo. A.; Mrs. S. C. Legge, Ohio Beta; Ruth Jones Russell, New York Alpha; Jessie L. Oarves, Ill. Zeta; Mary Hohn, Calif. Gamma; Margaret Ziske, Minn. Alpha; Jessie Lasater, Ill. E.; Hazel Paldar, Ill. E.; Betty Taylor, Ill. E.; Lillian I. Bass, Minn. A.; Ruth S. Haselton, Ohio Delta; Mary J. White, Mich. B.; Alice Callender, Mich. B.; Fern Schott, Mich. B.; Ruth Pearce, Ontario Alpha; Harriet Pearce, Ontario Alpha; Dae Lyon, Ontario Alpha; Dorothy Harding, Ontario Alpha; Elspeth Logeman, Ill. Beta; Marcia Jane Booth, Wis. Beta.

Tennis

Entries in tennis play were Eva Lenz, Wisconsin Beta; Lucile Hartman, Iowa Beta; Maxine Lawson, Minn. A.; Betty Bass, Minn. A.; Della E. Martin, Vermont Beta; Dorothy May, Illinois Epsilon; Jessie Lasater, Ill. E.; Hazel Paldar, Ill. E.; Helen Moffett, Ill. E.; Marie Parkinson, Minn. A.; Lillian L. Bass, Minn. A.; Gladys Blakey, Ill. E.; Elaine Meyer, Colo. A.; Eugenia Moore, Wis. Beta; Frances Palmer, Wis. Beta; Anna Hanan, Penn. Alpha; Dorothy Brandon, Ontario Alpha; Dorothy Harding, Ontario Alpha; Aimee Davidge, Ontario Alpha; Helen Appleby, Ontario Alpha; Helene Hermance, Ontario Alpha; Katherine Rundell, Minn. Alpha; Marie Johnson, Colo. Alpha; Carol Reed, Ill. Beta; Virginia Alexander, Iowa Gamma.

Bridge Tournament

The entries for the bridge tournament exceeded all others and included Doris Whiting, New York Alpha; Marjorie Green, New York Alpha; Ruth Russell, New York Alpha; Margaret Groedez, Idaho Alpha; Mrs. A. M. Purves, Ill. Zeta; Jessie

L. Purves, Ill. Zeta; Dorothy Bouck, Calif. Gamma; Kathryn Chapman, Calif. Gamma; Lucile Welch, Illinois Zeta; Helen Purves, Illinois Zeta; Mary Stohrs, Calif. Gamma; Helen Higgins, Calif. Gamma; Helen Leitz, Minn. Alpha; Margaret Fiske, Minn. Epsilon; Florence T. Shields, Neb. Beta; Florence N. Purney, Neb. Beta; Harriet Ellis, Minn. Alpha; Eleanor C. Lowman, Minn. Alpha; Louise Mohnaux, Minn. Alpha; Jessie Lasater, Ill. E.; Hazel Paldar, Ill. E.; Marguerite E. Newman, Ill. Beta; Florence C. Friedlund, Ill. Beta; Edna Basset Rotund, Ill. Epsilon; Dorothy Prebble, Ill. Zeta; Mrs. M. Schneiddereth, Baltimore, Md.; Mrs. Louise H. Schaar, Baltimore; Mrs. W. M. Haselton, Delaware; Jean Miller, Va. Alpha; Nancy Keith Snyder, Va. Alpha; Mrs. A. C. Stebbins; Mrs. R. B. Adams.

Mary J. White, Mich. B.; Alice Callender, Mich. B.; Agnes W. Miller, Minn. Alpha; Marie Parkinson, Mo. Beta; Helen S. West, Iowa; Mae Irwin Kennedy, Iowa; Irene Berg Hospes, Iowa; Barbara Stanton Lorenz; Edith M. Briscoe, Fla.; Kathryn Chesley, Wis.; Betty Bennett, Ill.; Mrs. G. E. Stratton, Penn.; Catherine Collins, Wis.; Betty Coulter, Wis.; Marion Henschel, Wis.; Mary Warren, Colo. A.; Elaine Meyer, Colo. A.; Eugenia More, Wis. B.; Frances Palmer, Wis. B.; Ethel Barnes, Wis. B.; Dorothy Oviatt, Wis. B.; Fern Schott, Mich. B.; Lucy Newell, Wis. A.; Dorothy Harding, Ont. A.; Dorothy Brandon, Ont. A.; Harriet Pearce, Ont. A.; Marjorie Medland, Ont. A.; Ruth Pearce, Ont. A.; Helen Appleby, Ont. A.; Aimee Davidge, Ont. A.; Dorothy Rogers, Ont. A.; Josephine Booth, Ont. A.

Virginia Mead, Wis. Alpha; Emma May Dorris, Missouri Beta; Mary Grier, Missouri Beta; Marian Appleby, Ontario Alpha; Mrs. Savre, Calif. Alpha; Miss Ruth Haseltine, Ohio Delta; Irene Eldridge, Wis. Beta; Bessie Weirick, Wis. Beta; Margaret Goodwin, Wis. Beta; Valarie Wickham, Wis. Beta; Dorothy Burrows, Ill. Zeta; Eugenia Ballis, Ind. Alpha; Eleanor Abbott, Minn. Alpha; Ethel R. Curryer, Ind.; Eloise Armington, Ohio; Margaret Saints, Ohio; Josephine Bebe, Ohio; Kathryn Evans, Ind.; Marie Johnson, Colo. Alpha; Mrs. Morton, Colo. Alpha; Kathryn Burrows, Ill. Zeta; Viola Lenning Battles, Minn. A.; Mary Green, Mrs. E. Harlan, Iowa Beta; Della Merchant, Minn. Alpha; Margaret Donne, Minn. Alpha; Harriet Shafer, Mo. Beta; Mrs. Wm. Schwindelen, Mo. Beta.

Ruth Appleton, Ill. Beta; Audrey Diederick, Ill.; Mary Stober, Ohio Alpha; Virginia Neilsa, Minn. Alpha; Henrietta M. Cutchan, Mo. Beta;

Elizabeth Hulme, Wis. A.; Margaret Morton, Colo. A.; Ruth Rodda, Minn. A.; Luella Humphrey, Minn. A.; Mrs. C. A. Lamson.

Twenty-five tables were played in the lobby of Breezy Point log hotel. Two prizes were awarded and a draw prize.

Maintained Cemetery for Seventeen Years Without a Permit

St. Paul, June 28.—(UP)—For 17 years the congregation of a Jewish synagogue has maintained a cemetery here without a permit and today the city council was asked to order that all bodies be exhumed and removed. The entire congregation of 150 persons appeared before the council and objected to such action.

The order was asked by Mrs. Rose S. Ursella, Minneapolis, through her attorney, J. P. Kyle. Mrs. Ursella owns two lots adjoining the cemetery.

Kyle said the burial ground was a nuisance to neighbors and that a permit should be refused.

A. E. Nelson, representing the B'nai Abraham congregation, said Mrs. Ursella was disgruntled because she had not been successful in disposing of her land.

The council deferred action until Thursday.

AIRPLANE FLEET LEAVES BUFFALO

Buffalo, N. Y., June 28.—At one minute intervals, the thirteen competing airplanes in the 4,000-mile national air tour took off from the airport here today and headed for Geneva on the second leg of the flight.

An Eaglerock plane, piloted by Paul Braniff, was the first to start. He was followed in rapid succession by the others. Three companion planes also took off.

Weather conditions were nearly perfect and the flyers expected to reach Geneva about noon.

Ship Measurement

In giving the dimensions of a ship, the length between perpendiculars means the length from the stem to the fore part of the rudder post. Except for the very largest ships, this is the length that gives the best basis of comparison.

Baltimore's Distinction

The first umbrella factory in this country was established in Baltimore, Md., and is still in operation. It is said that the first umbrella to reach America was taken to Baltimore and was first carried in that city.

OLD BILL, HUNDRED YEAR OLD PARROT, LAYS AN EGG

London, June 28.—(UP)—Apparently benefited by attendants' experiments with what corresponded to a monkey gland operation, Old Bill, famous zoo parrot, laid an egg on her 100th birthday.

Old Bill was christened years ago, before her sex was known.

She exhibited no surprise at the sudden resumption, after years, of her oviparous activities, but seemed proud of her feat.

Skeptics at the zoo, scouting the gland story, predicted her early death, although she seems to have grown more youthful. They say that it is common for many species to make a final effort to reproduce their kind, and cite the recent case of an alligator that died soon after laying a nest of thirty eggs after an interval of years.

Old Weapon of War

Halberd is the name of an ax with a pointed head and often much ornamented, fixed upon a handle five or six feet long. It was much used during the Sixteenth century by the foot soldiers of western Europe.

PERFECTLY SAFE

Youthful Mother-in-Law—George doesn't kiss you good-by every morning, I notice.

Twentieth Century Wife—Mamma you can't ask too much of a man! George is a bit absent-minded, but he always makes up for it. He'll kiss his stenographer instead, when he gets to the office.

Mother-in-Law—But surely you don't allow him to kiss his stenographer! Wife—Why not, mamma? It's a man—American Humor.

More Swag

"Martha," a farmer who had driven into town phoned to his wife, "an automobile load of robbers just held up the city bank and they're headed out our way. Don't go outdoors."

"I'll have to," was the frantic reply "Your Sunday shirt's hanging out on the line in plain sight."—Country Gentlemen.

Timid

A conversation with an old Dartmouth farmer's wife turned on an empty house in the neighborhood.

"I am surprised," said the visitor, "that such a fine place should stand empty so long."

"Ah, sir," replied the old lady, "it's a fine house, but it's festive with rats."

No More Doubt

Mr. Whitley—So the Franks have a baby now? Well, it will settle one question, anyhow.

Mrs. Whitley—What's that?

Mr. Whitley—As to who is the boss of the house.

Waste in Oil Production

In mining oil there is much waste. In some instances as much as ten barrels are left in the ground in getting out one. Also more natural gas is blown into the air when measured from the standpoint of energy, than the energy value of all the oil thus recovered.

Mother-in-Law—But surely you don't allow him to kiss his stenographer! Wife—Why not, mamma? It's a man—American Humor.

More Swag

"Martha," a farmer who had driven into town phoned to his wife, "an automobile load of robbers just held up the city bank and they're headed out our way. Don't go outdoors."

"I'll have to," was the frantic reply. "Your Sunday shirt's hanging out on the line in plain sight."—Country Gentleman.

Timid

A conversation with an old Dartmouth farmer's wife turned on an empty house in the neighborhood.

"I am surprised," said the visitor, "that such a fine place should stand empty so long."

"Ah, sir," replied the old lady, "it's a fine house, but it's festive with rats."

No More Doubt

Mr. Whitley—So the Franks have a baby now? Well, it will settle one question, anyhow.

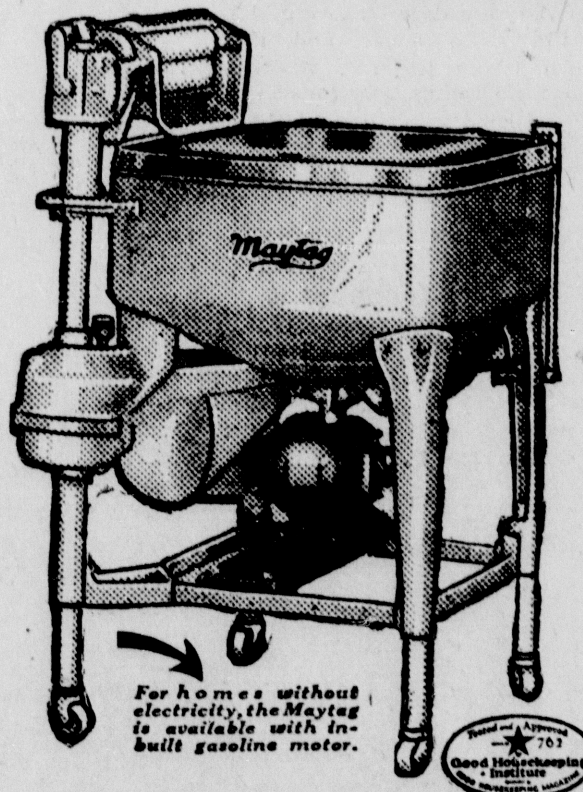

Mrs. Whitley—What's that?
Mr. Whitley—As to who is the boss of the house.

Waste in Oil Production

In mining oil there is much waste. In some instances as much as ten barrels are left in the ground in getting out one. Also more natural gas is blown into the air when measured from the standpoint of energy, than the energy value of all the oil thus recovered.

SCOUTS FIND RELICS OF INDIAN WARFARE

Peace Pipe and Arrowheads Taken
From Ground at Camp
Clearwater

RECALLS HISTORIC EVENT

Ojibway Indians in Bloody Massacre
at Scene Eighty
Years Ago

Eighty years ago a tribe of Ojibway Indians came up from Mille Lacs lake to the sugar bush on Clearwater lake at the place where the boy scout camp is now located. This is shown in records in the state historical society and particulars have been secured from the great grandchild of Chief Che-Mah-Qwa, which means Big Bear.

According to the story described by the grandchild, the tribe on their expedition to the sugar bush grounds were visited by army officers on an inspection tour from Fort Ripley. During the visit an argument between a brave and an officer was started, during the heat of which a brave was killed. To avenge, the tribe killed all but one of the army officers who made his way back to Fort Ripley. Two days later the general sent out a larger party to reprimand the tribe. They came upon them during a ceremonial dance in a beautiful gulley which formed a natural amphitheatre. The Indians were shot at from ambush and during the first volley the chief was killed. Not knowing whether it was the army or other tribes of Indians and so fearing that they might lose the scalp of their chief while the braves were fighting, the women and children fleeing for safety, a few braves hastily dug a shallow grave and buried their chief. In order to mark it they planted a sugar maple sapling above it because they had been getting maple sugar at that time. The braves that made their getaway by secret paths to Crooked Lake and by canoes, returned the next morning and buried the dead where they had fallen.

Among the survivors was the son of the chief who returned with the rest of the survivors of the massacre to their camp on Mille Lacs lake. There he lived peacefully until three years ago when he died. This is the story as given by him a few months before his death to Harry Ayers.

In building the scout camp formal council circle, and digging around, Patrol Leader John Van Eyra of Crosby unearthed the red pipestone pipe clinging in the roots of a huge maple. A little while later across the circle two arrowheads were found by Robert Hinckle, also of Crosby, which gives conclusive proof of the council's foresight in building their camp fire circle on the scene of the Indian fighting grounds almost a century ago.

The pipe and arrowheads have been placed in a trophy case and will be part of the exhibit at Camp Clearwater. This story was told to the boys at the council meeting Saturday night for the first time.

Next Saturday night at 8:30 o'clock the second grand council meeting will be held at this sacred spot at which all interested in Indian lore or scouting are invited to be guests.

A. H. Sahr has opened a shoe shop in the basement of the Garvey's restaurant building in connection with the shoe shining parlor.

Mr. Sahr who was formerly of Little Falls, expects to bring his family here in the near future.

PURCHASE MOTOR LAUNCH

Grand View Lodge Adds Pleasure
Craft to Properties for
Use of Patrons

The management of Grand View Lodge on Gull Lake has purchased a motor launch, said to be the largest pleasure boat operating on Gull Lake and valued at \$7,500. The boat was brought down from Minneapolis Saturday and passed through Brainerd on trucks Saturday night.

The boat will make trips from Grand View to the Pine Beach Golf course and will be available to excursion parties and for the general entertainment of the public and guests at the lodge.

C. M. Hough of Lakewood-on-Gull is in charge of operating the craft.

DAGGETT BROOK

Mrs. Fugate and family from Illinois are spending the summer with Mr. and Mrs. Edd Cofer.

Mrs. Owen Peaslee and daughter Margaret of Hibbing spent the week end with Mrs. Edd Cofer.

Fred Englehart and family, Frances Fallon and family, Fred Houle and family, Mr. and Mrs. John Fallon and Will Fallon of Hutchinson, Minn., picnicked at Long Lake Sunday.

Mr. and Mrs. Ernest Hagen and Betty and the Misses Leith motored from Motley Sunday and spent the day with Mr. and Mrs. Cofer. Christine remained for a few days.

DONATES ROW BOAT

Ludvig Aretander, Minneapolis Lawyer Shows Interest in
Boy Scout Camp

Ludvig Aretander, a prominent lawyer of Minneapolis, who has made his summer home at Bay Lake for several years visited Camp Clearwater for Boy Scouts Saturday and seeing the situation as to lack of boats has given to the camp a new rowboat. The camp is very grateful and wish to express their appreciation.

Several more boats are needed and any donations made will be gratefully received.

LIFE GUARD IN DEMONSTRATIONS

Earl Berg, Grand Rapids, Red Cross
Life Guard Will Start
Work Tomorrow

AT LUM PARK

Will Devote Mondays and Tuesdays
at Crosby-Ironton: Remain-
ing Days Here

Earl Berg of Grand Rapids, Mich., life guard, employed by the Red Cross Association of Brainerd and Crosby-Ironton to safeguard swimmers at district beaches will start work tomorrow at Lum Park. Announcement was made today by Ned Campbell, special life saving field representative of the American Red Cross who was in the city today making arrangements for the local summer program.

The program will include free swimming classes in the morning, advanced swimming classes and life saving in the afternoon and general life guard work.

Mr. Berg will devote Mondays and Tuesdays at Crosby-Ironton and the remainder of the week will be spent at Lum Park.

A special public demonstration in connection with the water sports at the Fourth of July celebration will be given by Mr. Berg.

The life guard will spend six weeks in the territory.

CHAUTAUQUA SEASON OPENS

Hon. W. L. Harding, Ex-Governor of
Iowa Takes Side of Boy
in School Issue

SOUTHLAND ARTISTS DELIGHT

Judge George D. Alden Will Lecture
Tonight on "The Needs
of the Hour"

Declaring that it is the duty of the state, the schools, the parents to see to it that each boy has the opportunity at the right time to further the study that he is most particularly interested in and that with this accomplished there will be no worry for the parents as to the future vocation of that boy, Hon. W. L. Harding, ex-governor of Iowa, made a dramatic appeal to the audience at the Chautauqua opening performance last evening not to curb a boy's desire but to aid him in the right things as greatly as possible.

His speech dealt with "Havoc of Steam," in which he brought forth the thought that steam had created a big change in the world and that the people should keep up with the times to benefit themselves.

In his reference to schooling, Mr. Harding emphatically declared that if it was in his jurisdiction he would break to pieces in a thousand parts and throw them in the gutter any subject that would drive a student from the schools because of his inability in that line. He particularly mentioned Latin as the subject which was the most trying to the student's mind. He said that pupils should be encouraged to develop their natural talents, and when the student specializes in one subject he should be furthered in his education in that line.

Mr. Harding gave several vivid descriptions of experiences on speaking tours through Iowa and the United States. Recently he visited 19 state legislatures on a national wide lecturing tour. His lecture was intermingled with sparkling humor which met with the approval of the audience.

Taking the side of the farmer the speaker stated that the farmer must cooperate to incorporate. He pictured a huge farm as large as a township, even as large as a county in which the farmers lived together, each specializing in the particular work of his desire. He urged that the farmer take a lesson from history, band themselves together to prevent robbery at other hands.

The Southland Artists, Miss Evelyn Going and Miss Bernice Bell, presented a very pleasing program

FOOD LONG CANNED OF GOOD QUALITY

**Shows No Deterioration
After Many Years.**

Skeptics have always scoffed at the story of the Alaskan prospector who declared that he saved a whole community from starvation through the discovery of the exposed carcass of a mammoth, whose flesh was wholesome after having been imbedded in a glacier for centuries. But that food properly protected from atmospheric changes may be kept for indefinite periods has frequently been proved. An instance is recorded in the files of the house committee on agriculture wherein, during the hearings on a bill to compel food-packing establishments to stamp the date of manufacture on their products, the late "Uncle Joe" Cannon produced in the committee room a large tin of corned beef that had been confined in its metallic jacket for upward of a quarter of a century, and when opened in the committee room was tested by the members and found to be "as good as on the day it was hermetically sealed in the container."

The latest proof of the fact that food may be thus preserved for an indefinite time comes through the foodstuffs division of the Department of Commerce, which reports that during an advertising campaign conducted by one of the large dealers in canned foods in Liverpool a tin of beef, which was a part of the stores taken to the arctic by Sir John Franklin 81 years ago, was recently opened and some of the contents fed to rats, without any ill effects, whatever. The can had remained in Liverpool since 1888.

The fact that the rats that were invited to the feast "lived to squeal again" might not in itself be considered as evidence sufficient to warrant the belief that the eighty-one-year-old beef was still fit for human food, but that belief was substantiated by the bacteriologist present, who reported: "Had this tin of meat been submitted to me by public health authorities I would have reported that it was in sound condition, showed no evidence of food poisoning or other products, and that it could be used as food without any harmful consequences."

After all, why should there be any fear from eating long-canned food? Do not the Chinese feast on eggs that they have stored for decades, without any preserving ceremonies whatever, except the original shells?

No Slouch

Thomas A. Edison, interviewed on his recent birthday, shook his head modestly over a voting contest that had made Henry Ford, Mussolini and himself the three greatest men living. "Only posterity," Mr. Edison said, "can know what men among us today are really great. Voting contests are no good, for each of us chooses his great men according to his own peculiar taste."

"A pawnbroker was discussing this voting contest with his wife the other day."

"Edison, Mussolini and Ford, hey?" he said. "Well, dey vas great men, yes; but de man vot Invented interest wasn't no slouch."

New Hawaiian Industry

Pineapple and sugar are the two principal industries of Hawaii, but a third is rapidly being established to make use of lands too wet for pineapple and too high for cane. This is starch, to be made from the edible canna. For fifty years Australia has supplied the market with arrow-root, which is starch from the root-stock of this plant. The familiar canna of our gardens has tubers rich in starch, but the edible species has a very much larger spread of underground stems filled with starch that is easily separated from the fiber for market use. Hawaii has used the plant extensively for stock feeding.

Guess Again

It was translation day in our Spanish class. We had Spanish sentences to translate into English, and it fell to my lot to take the first one. I started out, "I was to meet my—" and then stopped, not knowing the next word.

The teacher waited a moment and then said, "I know you have one," and I, not stopping to think, said hurriedly, "girl."

The class burst out laughing. I knew I had made some mistake, and after the laughter had subsided the teacher told me the word was "cousin."

Bull Fights Less Cruel

To stem the tide of cruelty in bull fights, managers of contests are protecting the horses. In Lima, Peru, the traditional skin-and-bones equines have been replaced by splendid specimens of horse flesh. They are not blindfolded, and are said to show skill in avoiding the horns of the bull while their masters waved the red cloaks in front of the charging bovine. In Madrid tests are being made to find a suitable armor for the horses. Other cities of Spain are introducing more humane methods.

Valuable Clay

Kaolin, or china clay, is the fine white clay used in the manufacture of porcelain. It is derived from the decomposition of feldspar in rocks. The chief British source of supply is the clay pits of Devon and Cornwall. Kaolin is also used for the sizing of printing paper and cotton cloth, and in the preparation of certain dyes.

GRANT B. MILLER

Grant B. Miller of Willard, Ohio, who succeeded Rush D. Simmons as chief of post-office inspectors, can boast of a notable record since entering Uncle Sam's Post-Office department in 1898. His main forte has been the running down and convicting of notorious mail bandits.

Coolidge to Receive Editors

Lincoln, Neb.—President Coolidge will receive members of the National Editorial association when they make their tour of Nebraska and the Black Hills of South Dakota, the middle of this month. Ole Buck, secretary of the Nebraska Press association, who is in charge of tour plans, was notified. The point where the editorial travelers will meet the President has not been selected yet, nor has a definite date been set, Mr. Buck said. The N. E. A. special train bearing between 400 and 500 editors, will leave Omaha June 15 and will return June 26.

30 Tampa Riot Suspects Held

Tampa, Fla.—Four dead, three others in a serious condition and more than a score wounded marked the three nights of rioting that culminated when national guardsmen answered shots from a crowd in the vicinity of the county jail with machine gun fire. Thirty alleged members of the mobs were under arrest and held to await action by the grand jury. Undismayed by an unsuccessful attempt Sunday night to remove B. F. Levins, confessed slayer of five, from the county jail, and another attempt Monday night when 12 persons were wounded in a fight with deputy sheriffs, the mob formed again and persisted in its purpose until the troopers' fire had mowed down 21 persons, four of whom subsequently died.

Doheny Oil Accounts Settled

Washington—Settlement of the receiver's accounts in the Doheny oil case, under which more than \$11,000,000 in cash and Liberty bonds accruing from the sale of oil from the Elk Hills, California, naval reserve, is turned into the federal treasury, was announced by Secretary Wilbur.

Canadian Attempts London Hop

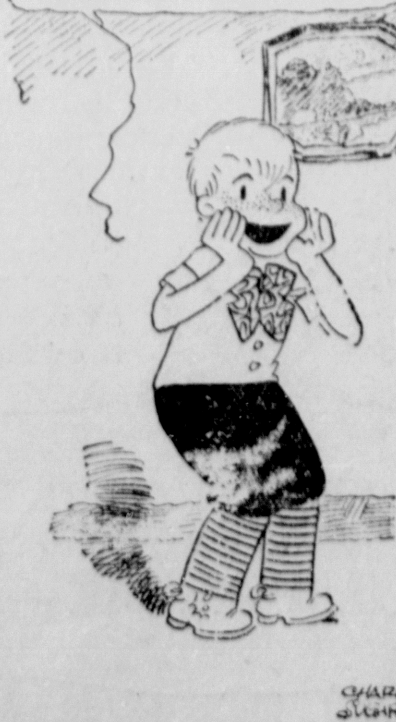

Ottawa, Ont.—Captain E. L. Janney, 34-year-old Canadian flying ace, announced that he would fly from Ottawa on the morning of June 30 in an attempt to make a non-stop flight to London, England.

Dupont Operated Upon

Philadelphia — Pierre S. Dupont, chairman of E. I. Dupont de Nemours & Co., was operated on at the Jefferson hospital. The operation was said to have been of minor character and Mr. Dupont was reported as "doing nicely."

Danger From Insects

Doctor Neave of the Entomological society of London, has stated that insects destroyed at least 10 per cent of all the plants which man cultivates for food or clothing, and it has been calculated that if the checks, natural and artificial, on the increase of the many species of green-fly, for example, were removed, the whole of the vegetable growth of the globe would be destroyed in six months.

After the Ball

A dashing phase of every artist's ball is the home going, in the cold gray dawn of the morning after. Invariably it rains, and there is not a taxi in sight. Makeup and grease paint are running, parts of rented costumes are missing, wigs are lost, lovers are separated and husbands and wives are not speaking. Oh, what bliss, to mingle in gay, mad Bohemia!—Vanity Fair.

Borden's EAGLE BRAND CONDENSED MILK

Dr. W. B. Caldwell

AT THE AGE OF 83

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated infants and children had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all children's little ills, he did not believe that a sickening "purge" or "physic" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even if the child is chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy

bowel movement but, best of all, it never gripes, sickens or upsets the most delicate system. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself.

Dr. Caldwell's SYRUP PEPSIN

Mother! It's Cruel to "Physic" Your Child

FOOD LONG CANNED OF GOOD QUALITY

Shows No Deterioration After Many Years.

Skeptics have always scoffed at the story of the Alaskan prospector who declared that he saved a whole community from starvation through the discovery of the exposed carcass of a mammoth, whose flesh was wholesome after having been imbedded in a glacier for centuries. But that food properly protected from atmospheric changes may be kept for indefinite periods has frequently been proved. An instance is recorded in the files of the house committee on agriculture wherein, during the hearings on a bill to compel food-packing establishments to stamp the date of manufacture on their products, the late "Uncle Joe" Cannon produced in the committee room a large tin of corned beef that had been confined in its metallic jacket for upward of a quarter of a century, and when opened in the committee room was tested by the members and found to be "as good as on the day it was hermetically sealed in the container."

The latest proof of the fact that food may be thus preserved for an indefinite time comes through the foodstuffs division of the Department of Commerce, which reports that during an advertising campaign conducted by one of the large dealers in canned foods in Liverpool a tin of beef, which was a part of the stores taken to the arctic by Sir John Franklin 81 years ago, was recently opened and some of the contents fed to rats, without any ill effects, whatever. The can had remained in Liverpool since 1888.

The fact that the rats that were invited to the feast "lived to squeal again" might not in itself be considered as evidence sufficient to warrant the belief that the eighty-one-year-old beef was still fit for human food, but that belief was substantiated by the bacteriologist present, who reported: "Had this tin of meat been submitted to me by public health authorities I would have reported that it was in sound condition, showed no evidence of food poisoning or other products, and that it could be used as food without any harmful consequences."

After all, why should there be any fear from eating long-canned food? Do not the Chinese feast on eggs that they have stored for decades, without any preserving ceremonies whatever, except the original shells?

No Slouch

Thomas A. Edison, interviewed on his recent birthday, shook his head modestly over a voting contest that had made Henry Ford, Mussolini and himself the three greatest men living. "Only posterity," Mr. Edison said, "can know what men among us today are really great. Voting contests are no good, for each of us chooses his great men according to his own peculiar taste."

"A pawnbroker was discussing this voting contest with his wife the other day."

"Edison, Mussolini and Ford, hey?" he said. "Well, dey was great men, yes; but de man vot invented interest vasn't no slouch."

New Hawaiian Industry

Pineapple and sugar are the two principal industries of Hawaii, but a third is rapidly being established to make use of lands too wet for pineapple and too high for cane. This is starch, to be made from the edible canna. For fifty years Australia has supplied the market with arrow-root, which is starch from the root-stock of this plant. The familiar canna of our gardens has tubers rich in starch, but the edible species has a very much larger spread of underground stems filled with starch that is easily separated from the fiber for market use. Hawaii has used the plant extensively for stock feeding.

Guess Again

It was translation day in our Spanish class. We had Spanish sentences to translate into English, and it fell to my lot to take the first one. I started out, "I was to meet my—" and then stopped, not knowing the next word.

The teacher waited a moment and then said, "I know you have one," and I, not stopping to think, said hurriedly, "girl."

The class burst out laughing. I knew I had made some mistake, and after the laughter had subsided the teacher told me the word was "cousin."

Bull Fights Less Cruel

To stem the tide of cruelty in bull fights, managers of contests are protecting the horses. In Lima, Peru, the traditional skin-and-bones equines have been replaced by splendid specimens of horse flesh. They are not blindfolded, and are said to show skill in avoiding the horns of the bull while their masters waved the red cloaks in front of the charging bovine. In Madrid tests are being made to find a suitable armor for the horses. Other cities of Spain are introducing more humane methods.

Valuable Clay

Kaolin, or china clay, is the fine white clay used in the manufacture of porcelain. It is derived from the decomposition of feldspar in rocks. The chief British source of supply is the clay pits of Devon and Cornwall. Kaolin is also used for the sizing of printing paper and cotton cloth, and in the preparation of certain pigments.

GRANT B. MILLER

Grant B. Miller of Willard, Ohio, who succeeded Rush D. Simmons as chief of post-office inspectors, can boast of a notable record since entering Uncle Sam's Post-Office department in 1898. His main forte has been the running down and convicting of notorious mail bandits.

Coolidge to Receive Editors

Lincoln, Neb.—President Coolidge will receive members of the National Editorial association when they make their tour of Nebraska and the Black Hills of South Dakota, the middle of this month. Ole Buck, secretary of the Nebraska Press association, who is in charge of tour plans, was notified. The point where the editorial travelers will meet the President has not been selected yet, nor has a definite date been set, Mr. Buck said. The N. E. A. special train bearing between 400 and 500 editors, will leave Omaha June 15 and will return June 26.

30 Tampa Riot Suspects Held

Tampa, Fla.—Four dead, three others in a serious condition and more than a score wounded marked the three nights of rioting that culminated when national guardsmen answered shots from a crowd in the vicinity of the county jail with machine gun fire. Thirty alleged members of the mobs were under arrest and held to await action by the grand jury. Undismayed by an unsuccessful attempt Sunday night to remove B. F. Levis, confessed slayer of five, from the county jail, and another attempt Monday night when 12 persons were wounded in a fight with deputy sheriffs, the mob formed again and persisted in its purpose until the troopers' fire had mowed down 21 persons, four of whom subsequently died.

Doheny Oil Accounts Settled

Washington—Settlement of the receiver's accounts in the Doheny oil case, under which more than \$11,000,000 in cash and Liberty bonds accruing from the sale of oil from the Elk Hills, California, naval reserve, is turned into the federal treasury, was announced by Secretary Wilbur.

Canadian Attempts London Hop

Ottawa, Ont.—Captain E. L. Janney, 34-year-old Canadian flying ace, announced that he would fly from Ottawa on the morning of June 30 in an attempt to make a non-stop flight to London, England.

Danger From Insects

Doctor Neave of the Entomological society of London, has stated that insects destroyed at least 10 per cent of all the plants which man cultivates for food or clothing, and it has been calculated that if the checks, natural and artificial, on the increase of the many species of green-fly, for example were removed, the whole of the vegetable growth of the globe would be destroyed in six months.

After the Ball

A dashing phase of every artist's ball is the home going, in the cold gray dawn of the morning after. Invariably it rains, and there is not a taxi in sight. Makeup and grease paint are running, parts of rented costumes are missing, wigs are lost, lovers are separated and husbands and wives are not speaking. Oh, what bliss, to mingle in gay, mad Bohemia!—Vanity Fair.
